ACCESSIONS. 4720

SHELF NO. 352.

RULES AND REGULATIONS.

Any resident of Needham, Mass., over 12 years of age, may draw books.

Books can be drawn or returned only by card.

The owner of the card is responsible for all books taken on it.

All books must be returned within 14 days, except those otherwise marked, but any book may be renewed if no other reader is waiting its return.

Fine on books overdue 2 cents a day and after a week cost of recovery.

Books are not issued to any one owing fines.

Only one volume at a time can be taken home except by special permission.

Marking of any kind, folding of leaves, and all other injury to books is strictly forbidden by laws of the State.

Borrowers finding a book marked, mutilated or defaced, must report it at the desk, or be responsible for the condition of the book on its return.

Loud talking and all unnecessary noise in the library rooms are prohibited.

Ignorance of the rules is no excuse for violating them.

Simeon Grover, taking census,	12 00
	$84 94

Recapitulation.

Total for teaching, care of houses and fuel for the year 1881,	$10,279 72	
Incidentals,	756 90	
		$11,036 62
Teaching, care of houses and fuel prior to April 7, 1881,	$4,567 39	
Incidentals,	463 53	
		$5,030 92

For this amount no special appropriation was made, but by vote of the town passed April 4, 1881, it was "Voted that the unexpended balances Jan. 1, 1881, be appropriated for the payment of deficiencies, and current expenses of the town since that date." Of the above amount $4,523.77 was paid by the town prior to division, and the balance $507.15 was paid by the Treasurer of Needham since April 6, and charged to joint account of Needham and Wellesley.

Teaching, care of houses and fuel since April 6, 1881,	$5,712 33
Appropriation,	6,500 00
Unexpended balance,	$787 67
Incidentals since April 6, 1881,	$293 37
Appropriation,	750 00
Unexpended balance,	$456 63

Total expenditures of the year for Schools, exclusive of those in the town of Wellesley,	$8,255 22
Incidentals,	437 54

Respectfully submitted,

JOHN M. HARRIS,

Secretary.

REPORT OF SCHOOL COMMITTEE.

The number of Schools in the town of Needham for the first three months of the past year was twenty-five, with an average membership of thirty-two scholars to each school. They were upon the whole, in a thriving condition and doing good school work. Upon the sixth of April, by the incorporation of the town of Wellesley, eleven of these schools with an average membership of twenty-eight and ten elevenths scholars each, passed from under our management, leaving as will be seen, but fourteen schools in the town for the greater portion of the year. The report here submitted relates chiefly to these fourteen remaining schools. They consist of one High, four Grammar, two Intermediate, four Primary, one Sub-Primary and two Mixed or Ungraded schools, and had at the time of the division of the town an average membership of thirty-four and three sevenths scholars each. The efficiency of these schools does not appear to have been in any way affected by the act of division, but the expense of maintaining them at their present standard, though actually no greater, will of necessity bear more heavily upon the tax-payers than before. The creditable standard which they have attained is worthy of comment, while the work accomplished and progress made will compare to an advantage with that of previous years.

An unusually large number of new teachers have been employed during the year. But six of those in the schools at the commencement of the year still remain. These changes have been, in nearly every instance, from a determination on the part of the teachers, either to retire from the occupation of teaching, or to accept more advantageous positions offered elsewhere. They have usually occurred at the close of some term, and as the vacancies occasioned by the retiring teachers have been filled by experienced and competent successors, the interruptions occasioned thereby have been but

slight, nevertheless it is impossible that so many changes should occur in a single year without having more or less of an effect upon the welfare of the schools.

In accordance with a feeling expressed by the citizens at the last annual meeting, that the schools should be conducted upon as economical a basis as possible, wherever in the opinion of your committee, a judicious reduction in the expenses could be made, it has been done. The employment of an assistant in the High school was discontinued at the close of the spring term, and other less important reductions have been made. No change of text-books has been made during the year, and no new books have been introduced, but the failure on the part of some of the parents to provide their children with the books required, has been a source of annoyance to both teachers and committee. A slight expense on that account has been incurred in complying with the law requiring the committee to see that the requisite books were supplied.

Your committee have not been unmindful of a demand made by certain of our citizens for the establishment of a higher grade of Grammar school, which should, to a certain extent, take the place of the High school. The law requiring a High school to be kept in our town cannot be disregarded, but the adoption of a triple course of study therefor, by which an opportunity is afforded the pupils of pursuing, at their option, either a "general," "college" or "business" course was designed to meet this very want. Pupils pursuing the latter course are not required to take either Latin, Greek, or any foreign language, but may devote the entire three years of the course to the study of the higher English branches, including reading, arithmetic, book-keeping, surveying, English literature, history, physiology, natural philosophy, chemistry, astronomy, botany, etc. We cannot but feel that if this arrangement was more generally understood by the people of our town, we should hear less complaint in that direction.

For four years the school committee have annually called the attention of the town, to the insufficient accommodations for the schools at the Plain and Highlandville, and we should fail to do our duty if we neglected to again refer, for the fifth time, to so pressing a want. The Plain Intermediate school has been kept for the last six or seven years, in a rented room in Odd Fellows

Building, illy suited to school purposes, while the Primary and Sub-Primary schools at Highlandville are both crowded into one room none too large for either school alone. We therefore renew our recommendation of last year that the present buildings at these places be remodeled and enlarged or new ones erected.

The number of pupils at present upon the registers of our different schools is as follows:

High School,	34
Plain Grammar,	32
Plain Intermediate,	42
Plain Primary,	52
Highlandville Grammar,	35
Highlandville Intermediate,	36
Highlandville Primary,	29
Highlandville Sub-Primary,	44
Center Grammar,	27
Center Primary,	42
East Grammar,	20
East Primary,	26
Parker Mixed,	33
Greendale Mixed,	13

We recommend the appropriation of $8,300.00 for schools for the present year, and $500.00 for incidentals.

Respectfully submitted for the Committee,

EMERY GROVER,

Chairman.

SELECTMEN'S REPORT.

The last year has been indeed an eventful one in the history of the town of Needham. After a corporate existance of one hundred and seventy years, being in a prosperous condition, with a valuation of over four and a half millions, a population of more than five thousand, and holding an influential position with our sister towns in the County and the State, we have been called upon to surrender about sixty per cent. of our valuation, over one half of our population and nearly half our territory to incorporate the town of Wellesley; but notwithstanding the line of separation has been drawn let us not forget that the people of the two towns have been united for nearly two centuries with very many pleasant associations, and have attained a degree of prosperity, which both towns should endeavor to maintain. We should not hold the people of a town responsible for the action of a few individuals who may be willing to sacrifice the prosperity of a town, if they can thereby reap a temporary advantage. We feel that the interest of the two towns are largely identical, and that the prosperity of either will be an advantage to the other.

Let us endeavor by wise and judicious management, and a constant watchfulness and vigilance in our appropriations and expenditures, to so conduct our affairs that we can have all the advantages that other towns enjoy and a low rate of taxation. Then we will assure you that we shall make accessions that will be advantageous to us. Let us try to overcome local prejudices and narrow sectional interests and each work for the general good.

It is very important that we should have good schools and good roads. Our School Committee should ask themselves each year are we getting the most we can for our money; so also with the disbursing officers of our highway funds.

It would seem to us that there could be a saving made in the supply of the fuel for our school houses, if the School Committee

should advertise for proposals, or negotiate with reliable dealers to furnish and deliver at the houses as it is wanted, coal or wood of a standard quality, and to be weighed on scales in the town, such negotiations to be made where it is cheapest.

Settlement with the Town of Wellesley.

Under the provisions of Sect. 4 of the Act for the Incorporation of Wellesley: "All the property both real and personal at the time of the passage of the act, shall be equally divided between the towns of Needham and Wellesley; provided however that each of said towns shall hold, retain and own all or said property now within their respective limits, but if either of said towns shall hold and retain more than one half in value of said property belonging to the town of Needham at the time of the passage of this act, such town shall pay to the other town a sum of money equal to the excess in value of the property so held and retained."

The following conditions were agreed upon between the Selectmen of the two towns. That the town of Wellesley shall pay the town of Needham for their share of the town farm and buildings seven thousand dollars, four thousand dollars for their share of the excess in value of school houses and lands on the West side over that on the East, nine thousand five hundred dollars for the excess of roads and bridges to be maintained by the town of Needham, nine hundred thirty-four and 3-100 dollars for our share of the personal property at the town farm and the safe with Solomom Flagg Esq., Town Clerk of Wellesley, one hundred sixty-five and 93-100 dollars for our share of the hose and hose carriage, at the Lower Falls, and four and 50-100 dollars for our share of a highway plow, making an aggregate of twenty-one thousand six hundred and four and 46-100 dollars. Interest on the same from April 6th, 1881. to Jan. 1st, 1882. five hundred and seventy-three and 50-100 dollars. Interest from Jan. 1st, 1882, to Jan. 21st, inclusive fifty-six and 24-100 dollars.

And that the town of Needham shall pay the town of Wellesley four hundred and ninety and 12-100 dollars for their half of the gravel lands situated on the Needham side, forty-nine and 6-100 dollars for the excess of fuel in the school houses on the East over

that on the West side, thirty-five and 70-100 dollars for Wellesley's share of the drain pipe stored on the East side, one hundred and forty and 53-100 dollars for their share of the estates held by the town by the Lowe tax title and thirty-four dollars for the Gallagher and Mahoney tax title making a total of seven hundred forty-nine and 41-100 dollars.

Since the above the following settlement has been made. At the time of division, Solomon Flagg handed over to his successor $3,090.61, and the Treasurer has received in settlement of claims belonging to the two towns $1,023.63 and he has paid out $1,387.60. After deducting the latter there is a balance of $2,726.64, half of which belongs to Wellesley and was allowed them in the settlement of the following claims: $1,525.38 as interest on Wellesley's share of the town debt, $1,211.62 as Wellesley's portion of note due in 1890 and $106.01 as premium on same.

Town Debt.

The following division of the town debt was agreed upon between the Selectmen of the two towns. Wellesley is to assume, discharge and pay the following notes, held by the Commonwealth: two notes of $5,000 each due respectively May 10, 1881 and 1886; and one for $5,500 due May 1, 1889, also three Natick notes for $5,000, each due May 1st, 1884, Oct. 1, 1887, Oct 1, 1888, also the S. F. Smith note for $4,500 due May 1, 1883.

Needham is to assume, discharge and pay the following notes, one for $5,000 now held by the Commissioners of the Lynn City Hall Sinking Fund, due May 1, 1882, and four for $5,000 each, held by the Commonwealth and due as follows: one May 10, 1885, one Oct. 1, 1887, one Oct. 1, 1888, and one May 1, 1890. These five notes being $1,211.62 more than our share of the debt, Wellesley has paid us that amount and a premium on the same of $106.01.

Agreeable to the vote at the meeting of Feb. 1, the Treasurer has paid the four notes held by the Commonwealth of $5,000 each by paying a premium of $1,040.50. After deducting the amount of premiums received from Wellesley it has cost us $934.49 to anticipate the maturity of these notes. The town of Need-

ham is now owing one note for $5,000, due the first day of May next which we would recommend that the town pay at maturity, freeing us entirely from debt.

Highways.

Owing to the division of the town our annual meeting was held several weeks later than usual. and late as it was your Selectmen felt it their duty to attend to matters of settlement between the two towns before giving much of their attention to highways, consequently work that should have been done early in the spring, was deferred until later in the season: considering the disadvantages, we think the highway appropriation has been judiciously expended.

Bridges.

It will be necessary during the summer to rebuild Day's Bridge and we shall ask an appropriation at the March meeting for that purpose. It seems to us advisable that in the near future, the Pierce Bridge should be thoroughly overhauled, the piers and mudsills taken up and new braces put in where they have been carried away by the ice or other causes.

Petitions for New Streets.

We have received petitions for two new streets, one from Dr. A. E. Miller and others, that Warren Street from Dedham Avenue to Garfield Street be laid out as a public way: this street will require considerable grading to put it in a suitable condition for public travel. There is a prospect of considerable increase of taxable property on this street, but the Selectmen do not think it expedient to lay it out as a public way at the present time.

The other petition was from Otis Morton and others, that May Street between Pickering and Garden Streets be laid out as a public way: your Selectmen are satisfied that the travel on this street is sufficient to warrant its being laid out as a public way, and have laid out that part between Pickering Street and Highland Avenue, but as the town has not the authority to lay a pub-

lic way across the Railroad, we have thought it best not to lay out any part of it west of Highland Avenue, there is but very little work needed on this street, and no land damages to be paid. No special appropriation will be required.

When new streets are to be of more advantage to the abutters than to the public generally, it would seem to us that before the Selectmen are warranted in laying out such streets as public ways, they should be put in such condition that they will not need immediate repairs.

Poor.

On the division of the town there were ten inmates of the Alms House, and one insane pauper in the Worcester Lunatic Hospital (Charles Brigham, since deceased) whose settlements were on this side of the town line. Arrangements were made with the town of Wellesley to board our part of the paupers at the Alms House at two dollars per week each.

Mr. and Mrs. Peabody being in charge of the institution was sufficient guarantee to us that our poor would be well cared for. Dennis Kelly, who has for several years been an inmate of the Alms House, died during the year.

Board of Health.

As members of the board of health we have been called upon to abate nuisances caused by the slovenly exposure and feeding of city offal. While we have not been able to trace the cause of any sickness to this nuisance it is certainly a great annoyance to people living in proximity to those who use it, and if those who use it are not willing to take the trouble to use disinfectants, they should be indicted. This however as affecting the health of the community falls into insignificance when we consider the impurities of our well water through the summer months. How few of our wells are made sure against toads, rats and insects that decay in the water and make it the prolific source of Diphtheria, Typhoid and other dreaded diseases. It is within the province of every family to have pure water. If they live in tenement

houses, and the landlords will not fix the wells so that they will be proof against vermin, they can protect themselves by dropping a piece of new board about a foot long into the well, which will be a receptacle to keep the vermin alive until they can be taken out.

Illegal Sale of Intoxicating Liquors.

Complying with the vote of the Town we have not granted any licenses the past year. Indirect complaints have been made of persons said to sell or dispense this article, yet none have been annoyed who will testify to such sale. While we have instructed the officers to abate any existing nuisance, we believe that no nuissance exists where sufficient evidence can be procured to warrant a prosecution.

Now this question will come in a little different form at the next March meeting, we would call attention of the voters to the importance of a careful review of the laws, and to act on one of the most difficult laws of our *time* and *state*.

Estimates of Appropriations for 1882.

Schools,	$8,300 00
" Incidentals,	500 00
Highways,	3,500 00
Poor,	2,000 00
Salaries,	1,450 00
Printing and Stationery,	300 00
Miscellaneous,	1,100 00
Extinguishing Fires,	100 00
Removing Snow,	500 00
Street Lights,	200 00
Collection and Abatement of Taxes,	400 00
State and County Tax,	3,000 00

All of which is respectfully submitted,

MARK LEE,
JAMES MACKINTOSH,
E. H. TUCKER,

Selectmen, Overseers of the Poor, and Highway Surveyors.

Needham, Dec. 31, 1881.

We have examined the several accounts of the Treasurer, Selectmen, and School Committee, and find them correct and properly vouched for.

JOHN MOSELEY,
T. O. FULLER,
GEORGE AVERY,
Auditors.

Needham, Feb. 11, 1882.

COMMONWEALTH OF MASSACHUSETTS.

Norfolk, ss.

To Edwin C. Moulton, a Constable of the town of Needham, in said County. Greeting:

In the name of the Commonwealth aforesaid, you are required to notify and warn the inhabitants of said town, qualified to vote in elections and in town affairs to meet at Parker Hall in said town on MONDAY, THE SIXTH DAY OF MARCH next, at one of the clock in the afternoon, then and there to act upon the following articles, namely: —

Art. 1. To choose a Moderator to preside over said meeting.

Art. 2. To hear the reports of Town Officers and Committees and act thereon.

Art. 3. To choose the necessary Town Officers for the ensuing year.

Art. 4. To see what sums of money the Town will grant for the support of schools.

Art. 5. To see what sums of money the Town will grant for laying out, discontinuing, making altering and repairing highways, townways and bridges, and for labor and materials to be used thereon.

Art. 6. To see what sum of money the Town will grant for the relief, support, maintenance and employment of the poor.

Art. 7. To see what sums of money the Town will grant for other necessary charges and expenses.

Art. 8. To see what action the Town will take in regard to unexpended balances.

Art. 9. To see what disposition the Town will make of the money received for dog licenses.

ART. 10. To see what action the Town will take in regard to the payment of its debt.

ART. 11. To see what action the Town will take in regard to street lights and appropriating money for the same.

ART. 12. To see if the Town will vote to have one or more superintendents of streets.

ART. 13. To see in what manner the Town will order the highway grant expended.

ART. 14. To see how the Town will have its taxes collected the ensuing year.

ART. 15. To see what sum of money the Town will grant for collection and abatement of taxes.

ART. 16. To see what action the Town will take in regard to borrowing money in anticipation of taxes, or renewing existing loans.

ART. 17. To see if the Town will accept the list of jurors as posted by the Selectmen.

ART. 18. To see if the Town will authorize its Treasurer to convey by deed or otherwise, the property held by the Town under tax titles.

ART. 19. To see if the Town will vote to grade and set out trees in the school yards and appropriate money for the same.

ART. 20. To see if the Town will vote to furnish ladders, buckets, hooks and axes, and carriages for the same, to be used in case of fires, to be located as the Town may direct and appropriate money for the same.

ART. 21. To see whether the Town will by its vote or otherwise ask the Legislature to extend to women who are citizens the right to hold town offices and vote in town affairs on the same terms as male citizens.

ART. 22. To bring in their ballots, "Yes" or "No" in answer to the question, "Shall licenses be granted in this town for the sale of intoxicating liquors?"

ART. 23. To see in what manner the Town will notify and warn its Town meetings.

ART. 24. To see what action the Town will take in regard to providing a suitable lockup.

ART. 25. To see what action the Town will take in regard to securing Parker Hall, or some other suitable place in which to hold their Town meetings.

ART. 26. To see if the Town will order the reports of Town officers to be printed.

ART. 27. To see if the Town will accept May street as laid out by the Selectmen.

ART. 28. To see what action the Town will take in regard to the drainage of Highland Avenue from the house of Wm. Carter, to the land of the heirs of Sherman Bowers, and appropriate money for the same.

ART. 29. To see what action the Town will take in regard to purchasing, selling, or exchanging gravel land.

ART. 30. To see what action the Town will take upon the petition of A. E. Miller and others that Warren Street from Dedham Avenue to Garfield Street be laid out as a public way.

And you are directed to serve this Warrant by leaving a copy thereof by you attested, at each of the dwelling houses in town, at least seven days before the time of said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, unto our Town Clerk, at or before the time of holding said meeting.

Given under our hands this the twenty-third day of February, A. D. 1882.

MARK LEE,
JAMES MACKINTOSH,
E. H. TUCKER.
} Selectmen of Needham.

A true copy—Attest: E. C. MOULTON, Constable of Needham.

REPORT OF SCHOOL COMMITTEE.

In taking a review of the state of our schools at this time, it appears that there have been fewer changes of teachers during the past year than in the year preceding; this generally may be considered an advantage to the schools; especially if the corps of teachers be competent,—the committee believe that to be the case at present.

A change has been made in the East school whereby the two departments have been merged in one; this was not intended to be a permament arrangement, but was deemed advisable on account of the small number of scholars then in the Grammar department,—whenever the number shall be sufficiently increased to warrant it, the two departments may be restored,—at present the number of scholars in this school is less then that in the Parker school. The committee, at the request of many parents that the elements of music might be taught in our schools as a branch in the regular course of study, has employed a competent teacher, Mr. Whittemore, for a part of the year to give instruction in that department, as a trial; the success or value of which might be tested at a public exhibition in February, so that the town could decide at the annual meeting, whether an appropriation for that purpose should be made. Mr. Whittemore and his daughter have received $50.00 for tuition, and we believe full value has been received by the scholars. The appropriation necessary to carry out this plan for a year, would be about the sum required for one additional teacher.

The average condition of all the schools appears to be such as to compare not unfavorably with that of former years, so that there seems to be ground for a reasonable degree of satisfaction.

But naturally a very serious question presents itself, which is, are we getting a return, such as we might reasonably and practically expect to get for the money our schools cost? we fear the answer must be no,—of course there are many causes that go to

make up this result; some of which are almost unavoidable; but your committee believe that one of the most prominent, and one that we might remedy if we would, is the low rate of average attendance, and the prevailing habit of tardiness.

In the annual report of the State Board of Education for 1880 and 1881 we find that of the 21 cities, and 325 towns of this Commonwealth, making a total of 346, the town of Needham stands No. 16 in the graduated table of the amount paid by each town for the education of each scholar; that is, there are only 15 cities or towns in the state that appropriate more money per scholar than this town—the list of these cities and towns in their order is as follows: Nahant, Brookline, Boston, Milton, Newton, Winchester, Arlington, Lexington, Dedham, Medford, Swampscott, Weston, Belmont, New Bedford, Watertown, Needham.

It also appears that of the 24 towns in Norfolk County, the town of Needham stands No. 4 in the graduated table of the amount paid by each town for the education of each scholar; that is, there are only three towns in the county that pay more money per scholar than this town; their order is Brookline, Milton, Dedham, Needham. This is certainly a very fair exhibit, and in so far as liberal appropriations of money for the support of schools are concerned, we have no reason to feel ashamed of our town; but on the contrary we may be pardoned if a grain of pride on this point should show itself.

But it also appears from the report and tables above referred to, that in the matter of average attendance Needham stands No. 255 with an average per cent of $70\frac{96}{100}$ that is, there are 254 cities and towns in the Commonwealth that show a better average attendance; while in the County of Norfolk, Needham stands No. 23, the town of Dover alone showing a lower rate.

Now in the report of the school committee of the town of Needham dated April, 1848, it is stated that in the graduated tables showing the amount of money paid by each town in the state for each scholar, Needham stood No. 89, and in the county No. 17, and in the tables of attendance an average of $75\frac{5}{6}$ per cent. Thus it appears that since 1848 our grade in the tables of appropriations, both in state and county has gone up, while our per cent. of attendance has gone down. And it seems to us that these

facts show that here is one very good reason why we do not get a return such as we might reasonably and practically expect for the money. Your committee do not wish for a moment to be understood to say anything in favor of a reduction of appropriations, but simply to call attention to the matter, and suggest that the remedy is almost entirely in the hands of the parents; if they could realize as a teacher can, how much of a drag upon the progress of a school, the irregular attendance and habitual tardiness of some of its members is, we think they would pay more attention to the subject, and we earnestly ask them to consider that in so far as they allow their children to absent themselves from school, or be tardy for trivial reasons, just so far are they contributing to lower the standard of efficiency of the school, and to waste the money so liberally appropriated.

There is one subject that we desire, with some diffidence, to present for your consideration, viz: the furnishing of free text books for all scholars by the town. In this we do not mean to urge or even to recommend the adoption of this plan, but merely to call attention to some facts relating thereto, and to suggest that further investigation be made as to the practical working of the system in those cities and towns where it has been put in practice.

In March, 1873, the Legislature passed a law authorizing cities and towns to furnish text books. In December of the same year the City of Fall River authorized the school committee to purchase text books in accordance with this law. The following table from the report of the superintendent of schools in that city may be of interest; it includes the cost of text books, stationery, apparatus etc.

Year.	Cost of text books, stationery etc.	Average attendance.	Enrolment.	Cost per capita on Ave. attend.	Cost per capita on Enrolment.
1874	$11,261 90	4505	9062	$2 49	$1 24
1875	5,288 15	4555	9988	1 16	53
1876	4,370 65	4875	8864	89	48
1877	5,342 51	5597	9376	95	57
1878	5,425 60	5727	9604	95	56
1879	3,966 58	5650	9155	70	43
1880	6,609 02	5845	9363	1 13	71
Total.	$42.264 41	36754	65412	ave. $1 18	ave. $ 64

Whether the same plan applied to Needham schools would produce the same results, we do not know, but if anything like these results could be obtained, it is certainly a matter worthy of consideration.

As to the insufficient accommodations for the schools at the Plain and Highlandville, we can only reiterate for the sixth time, the substance of the report of last year on that subject.

The number of scholars' in the different schools is as follows:

High School,	34
Plain Grammar,	38
Plain Intermediate,	42
Plain Primary,	41
Highlandville Grammar,	42
Highlandville Intermediate,	35
Highlandville Primary,	33
Highlandville Sub-Primary,	38
Center Grammar,	29
Center Primary,	50
East,	39
Parker,	43
Greendale,	15
Total,	479

We recommend the appropriation of $8,300 00 for schools, and $500 00 for incidentals for the present year.

Respectfully submitted for the committee,

JOHN M. HARRIS,

Chairman.

STATEMENT OF EXPENDITURES

AUTHORIZED BY THE SELECTMEN FROM JANUARY 1st TO DECEMBER 31st, 1882.

Repairs of Highways.

C. H. Dewing, self and horse,	163¼ days,		$489 75

a This amount comprises the unexpended balance of schools, $823.67 and that of school incidentals $458.39 the latter having been, by vote of the town carried to credit of school fund.

b This amount is the income of school fund received from Commonwealth of Massachusetts, appropriated to credit of schools by town vote.

c This is the amount received for dog tax, appropriated to credit of school apparatus by vote of the town.

d By vote of the town this was appropriated towards liquidating the town debt.

e Payments made for State aid are refunded to us by the Commonwealth.

f 60 per cent. of this amount $2,928 is returned to us by the town of Wellesley.

SELECTMEN'S REPORT.

In submitting their annual report, your Selectmen congratulate you that the town is free from debt of any kind, and trust that you will see that it is kept so. With liberal but not extravagant appropriations, and careful and prudent management in our expenditures we should have the necessary improvements without incurring debt or a high rate of taxation.

Failing to agree with the Selectmen of Wellesley upon the amount to be paid on account of the excess of scholars in the public schools, we applied for the appointment of Commissioners as provided in the act incorporating the town of Wellesley. Hon. A. L. Soule, ex-judge of the Supreme Court, Mr. Edwin P. Seaver, Superintendent of the Public Schools of Boston, and Mr. Amos T. White were appointed Commissioners. At a meeting of the Commissioners it was suggested that if the facts in regard to the claims of each party could be agreed upon it would save much time at the hearing. The Selectmen of the two towns agreed upon Mr. J. M. Harris and Mr. F. J. Lake, to examine and verify the registers and the accounts of the expenses of the schools for the year 1880: they made a very carefully prepared report, containing tables of the number of scholars in the schools and the cost of maintaining all the schools in the town; also tables of the number of scholars in the different grades of schools with their ages, and the cost of maintaining the different grades of schools, and the average attendance in each school. These tables were agreed to as facts, and presented to the Commissioners. The case was ably argued by Judge Abbott, for the town of Wellesley, and Hon. F. D. Ely, for the town of

Needham, and is now in the hands of the Commissioners who will report their decision to the Supreme Court.

Highways.

The town having voted "that the Selectmen have authority to appoint one or two superintendents of streets, and believing that the work on our roads could be better and more systematically done under the superintendence of one person, Mr. C. H. Dewing, who has had much experience in repairs of roads was appointed superintendent of streets: he has performed the duties of the position faithfully and to the general satisfaction of the public. After examination and trial of the different kinds of road scrapers, one was purchased, made by the Messrs. Kimball, called the "Eureka." It has proved entirely satisfactory, and we think it will be a great saving of expense in the repairs of our highways. There were several places on our highways where work had been postponed from year to year causing much complaint, and some of them were considered unsafe. The culvert near the house of R. Shaw has been relaid and the one near Sullivan's Factory extended and the street widened in accordance with the plans proposed by previous boards of Selectmen. Quite an amount of work has been done on Cedar street, the rock having been removed and the street widened and graded; this improvement was ordered by the County Commissioners previous to the division of the town, but no work had been done on that part of the street which was left in Needham; this street is now in good condition.

Upon examination of the Pierce Bridge it was found to be in very bad condition and unsafe for travel, — in connection with the Selectmen of Dover we have had it thoroughly repaired and except from some extraordinary occurrence it will be good for several years.

The rebuilding of Day's Bridge which has been postponed from time to time should be done the coming season; an appropriation will be needed for that purpose: we would also recommend a special appropriation for the improvement of the road from the house of James Cartwright to the Wellesley line.

The County Commissioners have ordered that part of Central

avenue between Webster street and the Newton line to be widened and improved. The plan given by them being very unsatisfactory to all who have seen it, a petition was presented to the Commissioners for a change in the line. They have issued notice for a hearing on the petition and we trust they will change the location. We have received a petition for the widening and straightening of Causeway street, on which we have given notice of a hearing.

Removing Snow.

Owing to the heavy snow storm of last winter, we were obliged to expend a much larger sum than usual for removing snow. Notwithstanding the thorough manner in which our roads were broken out, an action was brought against the town for injuries to a person, caused by his being upset by driving into a snow drift. After examination of the place where the accident was said to have occurred we thought it unwise to attempt to settle a case where the complainant was so clearly in fault. The case was tried at the last term of the Supreme Court at Dedham, and decided in favor of the town.

Support of the Poor.

The proper care and support of the poor is one of the most difficult subjects that comes before any board of town officers.

Owing to the increase in the cost of provisions of all kinds, we were obliged to pay more per week for the board of our poor in the Wellesley Almshouse, than for the previous year. We have found it necessary to return D.K.Ritchie to the lunatic asylum, one boy has been sent to the Massachusetts School for feeble minded and idiotic youths, and one family have left town and are now doing well with the prospect of being able to support themselves for the future. Of the poor out of the almshouse, one child has been adopted by a good and responsible family and will be no further charge to the town; two persons are partially supported by their friends, the town paying something towards their board; one of them is over 90 years of age and the other is partially insane. There are three other families who are receiving some assis-

tance from the town. Of the amount paid for temporary relief nearly $300 was for persons who had not a settlement in this town, and the most of it has been returned.

Street Lights.

At the annual town meeting the town voted "that whenever lamp posts and lamps are erected by citizens subject to the approval of the Selectmen the same shall be furnished with oil and lighted by the town." The location of 81 street lights has been approved and they are now being lighted at the expense of the town.

Fires.

The loss of property by fire has been larger than usual. The burning of Parker Hall was a serious loss to the place. There was great danger that this fire would extend to the neighboring buildings, but owing to the exertion of the citizens and the assistance of the Newton Fire Department it was confined to the building belonging with the Hall.—We have made arrangements by which we are to have the assistance of the Newton Fire Department in case of fire near the Upper Falls, when called for by the Fire Wards of that district. The Hook and Ladder truck, Buckets and Pumps voted by the town, have been received from the committee appointed to procure them, and have been placed in charge of the Fire Wards. The truck is temporarily located in a building near the stable of E. J. Eaton.

Lockups.

At the last annual meeting the Selectmen were instructed to provide a suitable Lockup, and $500 was appropriated for that purpose. The Selectmen, in connection with the committee appointed "to provide a suitable place in which to hold town meetings" made an agreement with Mr. White to have a Lockup placed in the basement of the building which he had agreed to erect and lease to the town. The failure to erect the building necessarily postponed the building of the Lockup. It was

thought advisable to wait the action of the town in regard to other town buildings before proceeding to build the Lockup.

License.

The town having voted in favor of granting licenses to sell intoxicating liquors, the number of licenses to be granted and the price to charge became a question for the Selectmen to determine, and they gave it careful consideration. They were urged by some parties that, as the law did not oblige the Selectmen to grant licenses, none should be granted, notwithstanding the vote of the town, or if granted they should be placed at the highest price allowed by the law. Others claimed that, as the town had voted for license, they should be placed at the lowest price allowed, and granted to all who should apply and furnish the necessary bonds. We did not think that when the town voted in favor of license they meant free rum, but that the license law should have a fair trial. After much consideration, and inquiry as to the practice in other places where licenses are granted, we fixed upon $300 per year as the price of a first-class license, and $150 per year for a second-class license, and required a strict compliance with all the provisions of the Public Statutes. We have granted two first-class licenses and one second-class and believe that the parties licensed have complied with all the requirements of the law.

Drainage of Highland Avenue.

Your Selectmen had a plan prepared for the drainage of Highland avenue, and made arrangements to carry the drain through private property, but in order to obtain a legal right to do so they issued a notice of their intention to lay the drain; there has been a hearing on the notice at which the owners of the lands proposed to be taken were represented, and no objection was made to the plan. You will be asked at the annual town meeting to accept the location.

Guide Boards.

We have made an examination of the guide boards in the town and find some of them badly defaced; we have made arrangements to have them repaired. We would recommend that guide posts be erected and maintained at the junction of Dedham avenue and South street, at the junction of South and Webster streets, and at the junction of South and Charles River streets.

Tax Titles.

All the property held by the town by tax title has been redeemed except the Galagher and Mahoney estate.

ESTIMATES OF APPROPRIATIONS FOR 1883.

Schools,	$8,300
" Incidentals,	500
Highways,	3,500

Respectfully submitted for the committee,

J. C. A. PAGE,

Secretary.

REPORT OF SCHOOL COMMITTEE.

To the Citizens of Needham:

Your committee take pleasure in acknowledging their gratitude for the generous provision made by the town, at its last annual meeting, for the welfare of the schools.

Feeling, as they have a responsibility in the wise and careful expenditure of the sum intrusted to their disposal, they have endeavored to use it as prudently as possible, and find a balance of several hundred dollars remaining unexpended at the close of the year, as the financial report will show.

The inadequate means of heating both the Plain and Highlandville School Buildings has been considered by your committee; and some perplexity has arisen, not as to the necessity, but the advisability of an immediate remedy. It is well known, and we do not need to call attention to the fact, that our school accommodations are insufficient and unsuitable; and the time is, perhaps, not far distant, when our town, in a more settled state than it has been since its new era of existence, will find it expedient, either to enlarge and remodel the present buildings or erect new ones. In view of this, your committee have hesitated to incur the expense of new heating apparatus, which might be involved ere long in the larger expense of more suitable accommodations throughout.

We congratulate the citizens of Needham upon the continued prosperity and the steady improvement of their schools. While the same degree of progress has not been attained by all, we are pleased to record, that, on the whole, the results of the year's work have been satisfactory and gratifying.

In the matter of attendance there has been a gain over last year, which we are glad to note, as prompt and regular attendance is an absolutely essential element to the prosperity of our public schools.

While the general healthfulness of the pupils of our schools

during the past year has been a cause for gratitude, we record with the deepest sorrow the death of Miss Sarah J. Pickering, so long one of our most successful and efficient teachers. In her sudden removal, not only her immediate circle of friends, but our town, and particularly our schools, sustained a loss. Her valuable instructions in the Primary department, were enjoyed by many now in higher grades, and her influence still remains and will never be forgotten. The only changes in our corps of teachers have been to fill the vacancies caused by her death, and by the resignation of an efficient teacher whose labors were transferred to another sphere of usefulness.

The instruction in music, which our schools have enjoyed during the past year, has, we think, been attended with beneficial results, which more than compensate for the added expense. The cultivation of a talent, which otherwise might lie dormant a life-time in the possession of many who have little or no opportunity for culture, except what the breadth and scope of the common school embraces, though not to be ignored, is by no means the only or most important result of attention to this branch of education. The study of music requires a habit of the closest attention, which habit, well developed, will empower the pupil to gain a rapid and complete mastery of whatever lesson is placed before him. The acquirement of a taste for music will develop a preference for refined and elevating entertainment. Besides, its influence in the school room is most salutary, and its systematic study enhances progress in all branches. This is the testimony of eminent educators, and its beneficial results we believe to have been experienced in our schools to a greater or less extent.

The blessing and glory of our common school system is that it is for the masses and not for the few, for the future as well as for the present, for the common as well as for the individual good; and it is of vital importance that our schools should be conducted in reference to this fact. Education is not merely acquirement of book knowledge, or the acquisition of valuable facts of science, history and literature, but it is the discipline of the mind, the cultivation of the heart, the formation of character—in short, the development of the

individual to its best. Our common school system seeks, or should seek to do this. The pupil should be taught to think for himself, to overcome difficulties, not have them removed; be encouraged to grasp thoughts and ideas, and be induced to thoroughly master, by his own effort if possible, whatever he undertakes to accomplish. Thus he will form habits of self-reliance and perseverance, which will fit him for success in any calling the future may present.

Besides, the pupil who is required to acquiesce in the discipline of the schoolroom (even if that discipline be not entirely faultless) is early learning the lesson of submission to civil law, and that element of good citizenship which always waives individual preferences for the common good of the community, and is being prepared to become a useful member of society and a loyal subject of our national government. Thus, the future stability of our government and the happiness of our nation rests very largely, on our public schools.

Recognizing their importance, the citizens of Needham have appropriated cheerfully for their support and have cooperated cordially in efforts for their prosperity. Our teachers also, during the past year, as in preceding years, have labored conscientiously and faithfully for the best permanent good of their pupils, patiently and ingeniously devising ways and means to inspire them with lofty ideas and aims; and your committee have the satisfaction to record, at the close of the year 1883, that there is, and has been, they believe, such a work in progress in our schools, as not only to give gratification in the present, but to inspire with hope and trust when considered in its important relations to the future.

We ask your consideration to the fact that a number of our school-houses need, and others will soon require, painting and repairs. To meet these necessities, without incurring a heavy expenditure in any one year, ecomony would suggest that each year a special appropriation of a small sum be made for such purposes.

We recommend the appropriation of $7,900 for schools and $600 for incidentals for the present year; and of $225 for repairs and painting of the Greendale school-house.

Table of Attendance.

	Whole number enrolled Sept. 1, 1883.	Average membership for the year 1883.	Average attendance, 1883.	Per. cent. of attendance, 1883.

Total,	527	463	412	.89

Respectfully submitted for the Committee,

J. C. A. Page,

Secretary.

SELECTMEN'S REPORT.

The Selectmen respectfully submit their report for the year ending December 31, 1883 :

Highways.

In accordance with the vote of the town we have continued to employ a Superintendent of Streets. The condition of our roads for the amount of money expended upon them is good evidence that this is the right system to pursue, and we recommend that it be continued. Mr. Dewing was again appointed Superintendent of Streets. His experience in repairs of roads is of much value to the town. The condition of the lower part of Causeway street has been the cause of much complaint. Commencing at the Dedham line we have had that part of the street raised and graveled for quite a distance. If the work is continued in the same manner as far as the foot of the hill near the house of Mrs. Glancy, it will cost but little to keep this part of the street in good repair for a long time. The wooden bridge on this street has been replaced by one of stone, which, except from some extraordinary occurrence, will last for years. South street, at "Felon's Hill," has been lowered, straightened and graded. The bridge near the house of Samuel Sutton has been repaired, and is now in good condition. The bridge on West street has been rebuilt; also several culverts which had become almost useless: and general repairs of the roads made where most needed, as far as the appropriation would admit. The work on the road near the house of James Cartwright, for which a special appropriation was made, has been

completed. Wellesley avenue, the lower part of Kenrick street, and Webster street between Great Plain and Dedham avenues, should receive early attention.

Day's Bridge.

In rebuilding Day's Bridge we thought it would be for the interest of the town and a saving of expense in the future to have the abutment made to conform to the street as laid out by the County Commissioners, and it has been so built. To do this it was necessary to exceed the appropriation. We advertised for proposals for the stone work. That made by Mr. Charles Hale was accepted, and the work was done in a satisfactory manner.

Drainage of Highland Avenue.

The work on the drainage of Highland avenue has been completed in accordance with the proposed plan, and within the appropriation. It is a great improvement to the street, and we believe gives general satisfaction.

Central Avenue.

Work has been commenced on Central avenue, but owing to frost and snow it has not been completed. To do this according to the order of the County Commissioners will require an additional appropriation.

New Streets.

We have received a petition to lay out a new street from West street to Rosemary street; also a petition to have Chapel street laid out as a town road.

Support of Poor.

We are now paying the board of four persons at the Wellesley almshouse, and one who is with friends. We have one in the Worcester Lunatic Hospital, two at Danvers, and two in the Massachusetts School for the Feeble Minded. The amount paid for partial support is about the same as for the previous year. We have collected for aid rendered to State paupers and those having settlements in other towns in this Commonwealth, $433.46. Part of this was due for aid rendered in previous years; $122.03 was for 1879 and 1880, one-half of which belonged to the town of Wellesley, and has been paid to the Treasurer of that town. Believing that the interest of the town required that some action should be taken with regard to medical attendance on paupers, we made arrangements with Dr. Eben Thompson to attend all who call upon the town for such assistance. By this arangement the expense of medical attendance will be much less than it has been.

Fires.

The loss of property by fire has again been large. In addition to the buildings destroyed, there have been extensive forest fires, doing a large amount of damage. Owing to the extreme dry weather, it was very difficult to control them. But we have suffered much less from this cause than many of the neighboring towns. Early in the fall we received a petition asking us to call a Town Meeting, to see if the Town would authorize the purchase of a fire engine, and take other measures for protection against fire. After consulting with some of the petitioners and other citizens, it was thought best to postpone the matter until the annual Town Meeting. Articles will be in the warrant for the annual meeting to bring the subject fully before the town.

Street Lights.

We have approved the location of eighty-eight street

lights, the expense of lighting of which is paid by the town.

Guide Boards.

New guide posts and boards have been placed at the corner of Dedham avenue and South street, at the corner of Webster and South streets, and at the corner of South and Charles River streets. The old guide boards have been repaired and painted and are now in good condition.

Town Hall.

We would call attention to the necessity of providing some suitable place in which to hold our Town Meetings—either by building a Town Hall, or in some other way.

Settlement with Wellesley.

The amount to be paid by the town of Wellesley on account of the excess of scholars in the public schools is still unsettled. At the time of making our last annual report the case had been submitted to the Commissioners upon a statement agreed to by both parties, and we anticipated an early decision. After some delay the case was reopened at the request of the counsel for the town of Wellesley. After further examination a statement has again been agreed upon, and the Commissioners have appointed a time for another hearing of the case, which we hope and trust will be the last one, and that the question may soon be settled.

STATEMENT OF EXPENDITURES

AUTHORIZED BY THE SELECTMEN FROM JANUARY 1st TO DECEMBER 31st, 1883.

Respectfully submitted,

J. C. A. Page,

Secy. School Committee.

REPORT OF SCHOOL COMMITTEE.

In submitting to our fellow-citizens a report of the condition of the public schools of Needham for the year 1884, your committee take occasion first, to express their pleasure that during the year no serious interruption in the work of the schools has occurred to retard their progress. In individual instances marked improvements have been made, particularly in methods of instruction, while in some other particulars, reforms which seemed to be equally desirable and for which your committee have labored with equal earnestness, have failed to be wholly accomplished, and yet, despite of failure to do all we would have desired to, the close of the year finds the schools of Needham in a condition which it is believed compares favorably with that of preceding years. Were we required to mention, from among the many evils which conspire to impair the proficiency of our schools, the one most to be feared, the task would indeed be a difficult one, but among the number and by no means the least is the want of a proper appreciation, on the part of both parents and scholars, of the privileges freely afforded by our common schools and a corresponding indifference in regard to their improvement. The very fact that they are thus free to all seems of itself to engender an apathy as to their importance. This lack of determination to take advantage of that which is thus generously and freely furnished is nowhere more apparent then in the large and unexcusable number of absent marks which appear upon our school registers, particularly in the higher grades. If parents would only consider, when they allow their children, upon some trivial pretext, to be absent a day from school, how important that day's attendance may be, and how, like the steps to a ladder, the progress of one day depends upon the thoroughness of the preceding, we cannot but believe that our school registers would soon show much cleaner pages.

It will appear upon examination that for seven consecutive years, the school committees' reports have contained a recommendation in regard to the insufficient accommodations for

the schools at the Plain and Highlandville. It would seem that a recommendation continuously made for so many years and by so many different boards of school committees must originate from some real want and be deserving of something more than the simple vote of acceptance which it has annually received. At the special meeting in August last the question again came up and it was finally voted "that the School Committee be instructed to consider the matter of increased accommodations for the schools at Highlandville and the Plain, and report plans and estimates for the same." In accordance with this vote your committee have considered the matter and are of the opinion that the best and most economical way to obtain the desired accommodations is to remodel and enlarge the present buildings. By so doing we think that the wants of the schools in this particular may be anticipated for quite a number of years to come. We have therefore had accurate plans prepared of the changes necessary in both houses for this purpose, and careful estimates made of the expense to be incurred. These plans and estimates will be presented at the next annual meeting, when it is hoped some definite action in the matter may be taken. It seems hardly necessary to add what has been said by another, that "health, happiness, usefulness and life are valued too lightly and sold too cheaply when they are bartered for the mere pittance necessary to erect, properly seat, heat, light and ventilate good school houses. They greatly err who covet and withhold the money that would confer education, usefulness, happiness and honor with health and long life upon their offspring." The sum of $225.00 was appropriated last year for repairs upon the Greendale school house. Specifications of the repairs needed were prepared by the committee and in response to a call for proposals, bids were received from some six or seven different contractors. After deducting the estimated cost of materials none of the bids received came quite within the amount of the appropriation, but as a delay of the work for another year would not only put the town to a still greater expense, but leave the buildings exposed to needless waste, it was thought best to proceed. The labor of painting was given to Mr. Daniel F. Mann for $45.00 and the other repairs to Mr. Henry S. Locke for $190.00, the bids of these two gentlemen being the lowest received. The cost of materials purchased by the commit-

:ee was $56.15. The work has since been done to the satis-'action of the committee.

From our financial report it will appear that the expendi-:ures for schools and incidentals have been kept well within :he appropriations, there being a total unexpended balance :nder these appropriations of $712.39.

In the matter of books and supplies, where, under the new state law, school committees have little or no discretionary power, there is an apparent deficiency of $190.98, but as a part of the appropriation for incidentals was originally intended when made by the town for the purchase of books and supplies, a portion of the unexpended balance under that head, may very properly be applied to offset this deficiency. Fully appreciating the liberality of the town in its educational appropriations, your committee are forcibly impressed with the importance of a judicious expenditure of the money thus placed at their disposal.

We recommend for the present year the appropriation of $7,900.00 for schools, $600.00 for incidentals and $300.00 for books and supplies.

The number of scholars in the different schools is as follows:

High School,	44
Plain Grammar,	45
Plain Intermediate,	35
Plain Primary,	47
Highlandville Grammar,	39
Highlandville Intermediate,	36
Highlandville Primary,	33
Highlandville Sub-Primary,	30
Centre Grammar,	40
Centre Primary,	34
East Mixed,	45
Parker Mixed,	41
Greendale Mixed,	27
Total,	496

Respectfully submitted for the Committee,

EMERY GROVER,

Chairman.

SELECTMEN'S REPORT.

The Selectmen respectfully submit their report for the year ending December 31st, 1884:

Highways.

It was deemed advisable according to the vote of the Town, to employ two overseers or superintendents of streets: we think they have been very efficient and have rendered the town good service, the proof of which may be seen in the amount of work done in the different parts of the town. Great Plain avenue, Highland avenue and Chestnut street should receive early attention and be kept up to the standard of first class roads.

Central Avenue.

The work on this avenue has been completed by the day, and we believe it has given general satisfaction.

Side Walks.

The side walks on Great Plain avenue and Highland avenue have been improved according to the vote of the town. We believe this is a step in the right direction, but to complete the work on these two avenues a further appropriation should be granted.

Hillside Avenue.

This street is in litigation, and it is deemed advisable not to make a report at this time.

Kenrick Street.

The improvement on this street was let out by contract to Jerry Collins and the work was done in a manner that gave general satisfaction.

Street Lights.

The contract for this work was let out to John Lank within the appropriation.

Well at East School House.

The work has been partially completed, but owing to the amount of blasting that was found to be necessary the appropriation will not be sufficient.

Furnishing Moseley Hall.

This hall has been furnished in a tasteful and satisfactory manner.

Common Lots.

According to a vote of the town the two lots were purchased, and the same have been paid for, and settled in a satisfactory manner.

Fire Engines.

According to a vote of the town at a special meeting we have purchased two fire engines and hose for the same. We think the town was fortunate in procuring two machines so good for so small an amount of money.

Support of Poor.

We have five persons in Wellesley almshouse, for whom

we are paying full board, and one we are partially supporting. There has also been one death during the year, viz: Elijah Woodcock.

Poor out of Almshouse.

It is very difficult and sometimes unpleasant for town officers to protect the poor and at the same time to do justice to the town.

In the case of the O'Hern family, there were eight persons stricken down with typhoid fever. Your overseers did all in their power to relieve them in their distress. It was very hard to get suitable persons to act as nurses in such a case. The expense was also heavy on the town, the sum of $263.45 was expended. They are now all well. The number now confined in the asylums is four, two at Danvers, one at Worcester and one at the Massachusetts School for Feeble Minded. Josie M. Hall is with her mother. We renewed the contract with Dr. Eben Thompson to attend the town's poor.

New Streets.

We have received a petition to lay out a new street from Pickering street to Webster street.

Houses for Fire Engines.

We think the town should take into consideration the building of suitable houses for the protection of Fire Engines in the different parts of the town, also for the convenience of the fire company.

Fires.

There have been two barns burned the past year. One owned by C. G. Upham, and one owned by C. & C. McIntosh. The personal property, consisting of live stock, a large quantity of hay, farming tools etc., belonged to David Henderson. There have been several forest fires, but not so extensive as last year.

Settlement with Wellesley.

The amount to be paid to this town by Wellesley for excess of scholars in our public schools has been agreed upon by the commissioners, and they reported that we were entitled to the sum of thirty thousand two hundred and twenty-one dollars and forty-six cents, and interest from February 15th, 1882, to the time it was paid, at 6 per cent. per annum. Wellesley demurred at this amount, consequently the case was carried to the Supreme Court. It was argued before the judges of that court a few days ago, and we may hear from them any day, or possibly not for several weeks.

STATEMENT OF EXPENDITURES

Respectfully submitted,

J. C. A. Page,

Sec'y School Committee.

REPORT OF SCHOOL COMMITTEE.

Within the past year two of our largest school buildings have been remodelled and enlarged and the long felt need of more ample accommodations for the schools at the Plain and Highlandville has been met. Eight of the thirteen schools in town are kept in these buildings. A delay of several weeks in the opening of the Fall term was occasioned by these alterations, and the school calender consequently disarranged. An unusual number of changes of teachers have also occurred during the year. All of which has had its effect upon the schools, and disturbed to some extent their work. We are pleased, however, to report that the close of the year finds them all running regularly and making good progress.

In a town like ours, with an increasing population, more or less unevenly distributed, it cannot be expected that all the schools will enjoy exactly the same advantages, or that exactly the same duties will fall to the lot of every teacher. One may be able to perform with ease the work required, while the time, energies and abilities of another are taxed almost to the utmost. This difficulty is sometimes obviated where a number of schools are in one building, by transferring the whole or a portion of a class to another school. Soon after the annual promotions last Fall it became evident that some such plan must be resorted to in the Plain grammar school, where, with a large number of classes and scholars, more work seemed to be required than could be faithfully performed by one teacher. The duty of hearing a portion of the recitations of one class was accordingly assigned to the teacher of the intermediate school in the same building, and has since been attended to by her. The economical feature

of this arrangement is its principal recommendation. It would be better if the time occupied by this class in filing from one room to the other was otherwise employed, and the interruptions thus occasioned to the two schools avoided. Your committee therefore recommend that another teacher be employed in this building. By an arrangement which could be easily made, the services of this additional teacher might be so utilized as to relieve not only the two schools in question, but all in the building, including the High, where it has been painfully apparent ever since the employment of an assistant was discontinued at the close of the Spring term in 1881, that its welfare, advancement and best interests were valued too lightly when weighed in the balance of expediency.

It has been suggested to the committee as desirable that all our school buildings should be appropriately named, many people objecting to such local, and, in some instances, inappropriate, designations as the "Centre school," the "Plain school," etc. This has already been done in one instance, the Parker school, at Charles River Village, and your committee make such a recommendation.

At the last annual meeting of the town the sum of eleven thousand dollars was appropriated, to be expended under the direction of the school committee, for the purpose of providing better accommodations for the schools at the Plain and Highlandville, in accordance with plans prepared by Mr. Herbert Moseley, and presented at that meeting. In compliance with this vote, specifications for remodelling and enlarging both buildings were prepared and advertisements issued, calling for proposals. Suitable divisions were made in the specifications, with a view to receiving proposals either for the entire work, on one or both buildings, or, if desired, by any one engaged in any special department of trade, for the particular labor or materials he might wish to furnish. In response to our advertisements bids were received from some six or seven different parties. The lowest bid received was from Mr. Joseph M. Kellaway, and the entire contract for both buildings was awarded to him for the sum of ten thousand and twenty dollars. The alterations have since been completed, substantially in accordance with the plans presented. Upon the final settlement with Mr. Kellaway a

small reduction of one hundred and seventeen dollars was made from the contract price.

The work was performed under the supervision of the school committee and the architect, Mr. Moseley, who was to receive for his services, including plans, a sum equal to five per cent. of the contract price, namely, five hundred and one dollars. By our financial report the entire appropriation appears to have been exhausted, while on the books of the Treasurer there still appears to be an unexpended balance of two hundred and one dollars. This seeming discrepancy is due to the fact that upon a final settlement with Mr. Moseley a bill for the balance due him, two hundred and one dollars, was approved by the committee and sent to the Treasurer for payment, but has not as yet, so we are informed, been called for by that gentleman.

At a special meeting of the town in September last it was voted "That the schoolhouses at the Plain and Highlandville be heated with steam," and the sum of two thousand five hundred dollars was appropriated for that purpose. Under this vote a contract for heating both buildings was given to the Exeter Machine Works, for the sum of twenty-two hundred and twenty-eight dollars, that being the lowest bid received. The work under this contract has since been completed in a thorough, workmanlike and satisfactory manner, and the wisdom of this method of heating the buildings has been fully demonstrated by the excellent results thus far attained.

We recommend for the present year the appropriation of $7,900 for schools, $650 for incidentals, and $500 for books and supplies.

Respectfully submitted for the Committee,

Emery Grover,

Chairman.

SELECTMEN'S REPORT.

The Selectmen respectfully submit the following report for the year ending December 31, 1885 :

A final settlement has been made with the town of Wellesley in regard to the amount to be paid on account of the difference in the number of scholars in the public schools at the time of the division of the town. The court confirmed the decision of the Commissioners, except the amount allowed for interest (See Selectmen's report for 1884.) This left the amount due the town of Needham $30,403.05, which has been paid. The cost of the Commission and counsel was $2,750.00, leaving a balance of $27,653.05, a part of which has been appropriated for repairs and alterations of schoolhouses. We would recommend that the balance of this award now in the Treasury be invested in some good security — the income to be used toward the support of schools. It is cause for congratulation that this long pending question has been settled ; we trust that any ill-feeling that may have arisen in consequence of the division of the town may be forgotten, and that the citizens of each town will rejoice in the prosperity of the other.

Support of Poor.

The number of persons receiving assistance at any time during the year was forty. Number receiving assistance Dec. 31, twenty-three, five of whom are in State institutions, five in Wellesley almshouse (one of them having a military settlement we pay but one third of the expense of his support), thirteen are assisted at their homes or with friends. The amount paid for the support of the poor during the year was $2,813.27, $447.83 of which was for unpaid bills of 1884 ; there are bills due Dec. 31 amounting to $239.69,

making the cost of the support of the poor for the year $2,605.13; $98.62 of this has been returned to the Treasurer, with $241.67 which had been paid in 1884. A claim has been presented for the support of one person in the Insane Asylum at Worcester from August, 1885; the place of his legal settlement being in doubt, we have paid nothing on his account.

Highways.

We have continued the same system as that of the previous year, employing Mr. Dewing and Mr. Pierce as superintendents, who have each performed their duties faithfully. In many places our roads are not in as good condition as they should be. We do not think the appropriation for the past year sufficient for the length of roads we have to maintain.

Sidewalks.

Several parties have availed themselves of the provision of the vote appropriating money to be used on sidewalks where the abutter would pay one half the expense. We have expended $198.63 for this purpose and the abutters the same amount.

Street Lights.

A contract for lighting and care of the street lights was made for one year with W. F. C. Balen, who has performed the service in a satisfactory manner. We have received a communication from parties who have placed lamps on Highland avenue between Webster street and the Newton line, asking us to accept and light them. The appropriation for street lights being only sufficient to light and care for those already accepted, we did not think it expedient to take any action in the matter.

Fire Department.

In compliance with the vote of the town at its annual

meeting, we appointed a board of Engineers, consisting of five persons. They organized by the choice of Thomas J. Crossman as Chief Engineer. He afterwards resigned and Henry A. Kingsbury was chosen to fill the vacancy.

Engine Houses.

We have purchased land at Highlandville on which to build an engine house, but have not been able to secure land at the Plain for that purpose. We have not commenced work at either place, as we have not been able to get the houses built without exceeding the appropriation.

Reservoirs.

Arrangements have been made with Mr. J. N. Brion to construct reservoirs at the Plain and at Highlandville for the amount appropriated. It was expected that they would have been completed before this time, but the storms have delayed the work; they will be finished as soon as the weather will permit.

Hillside Avenue.

The two suits against the town on account of the construction of Hillside avenue have been settled, one by judgment of Court, and the other by agreement with the parties. The road is now completed and open for public travel; it is well and thoroughly built.

New Street.

A petition has again been presented to have May street, from Pickering street to Webster street, laid out as a public way. As the town at its annual meeting dismissed a petition for the same object, we did not think it advisable to lay it out at the present time.

Much dissatisfaction has been expressed at the rate of taxation. One cause of the increase was several special ap-

propriations made at the annual meeting, and an appropriation of $4,100 made the previous year, but included in the tax of this year. It should be remembered that it is the voters when they vote the several appropriations that make the rate of taxes. If our taxes are more than they should be we must practise economy, as well as talk it. Towns, like individuals, are very apt to want all they see their more prosperous neighbors have, without stopping to consider the cost until the time of payment comes. We should have liberal, but not extravagant, appropriations for the necessary expenses and improvements, without an excessive rate of taxation.

STATEMENT OF EXPENDITURES

AUTHORIZED BY THE SELECTMEN FROM JANUARY 1st TO DECEMBER 31st, 1885.

Support of Poor.

Worcester Lunatic Hospital, support of D. K. Ritchie from Oct. 1, 1884 to Dec. 31, 1885,	$236 77
Danvers Lunatic Asylum, support of Jane Haywood from Oct. 1, 1884 to Oct. 1, 1885,	170 67
Danvers Lunatic Asylum, support of Lena Gehling from Oct. 1, 1884 to Sept. 17, 1885,	172 72
Asylum for Chronic Insane, support of Lena Gehling from Sept. 17 to Oct. 1, 1885.	6 50
Mass. School for the Feeble Minded, James L. Hotchkiss, Oct. 1, 1884 to Oct. 1, 1885,	184 37
Mass. Primary School, Amos E. Tivey, from Aug. 1 to Oct. 1, 1885,	26 14
Mass. General Hospital, Frank H. Kingsbury, Feb. 4 to May 31, 1885,	106 00
Town of Wellesley, poor in almshouse, Dec. 1, 1884 to Dec. 1, 1885,	699 83

Town of Wellesley, 35 tramps,	17 50

Deficiency,		$80 63

*Due H. Moseley on School Committee order, $201.00

AUDITORS' REPORT.

We have examined the accounts of the Selectmen and School Committee, and find them correct and properly vouched for. The result of our examination of the Treasurer's and Collector's accounts will be found with their respective reports.

We have prepared a statement of the Assats and Liabilities of the town, showing nearly assets enough to pay all the outstanding bills, besides building an engine house and completing the reservoirs, leaving a small debt of about $80.00.

The School Committee and Selectmen recommend appropriations for the year 1886 to the amount of $21,500. If these are voted, and the valuation remains the same, the rate of taxation will be about $11.50 on $1000.

We recommend that until the School Fund ($14,749.82) is permanently invested it be placed in a separate account from the general funds, all checks to be drawn subject to the approval of the Selectmen, or that the Treasurer's bonds be increased.

JOHN MOSELEY,
THOMAS SUTTON, Auditors.

Jan. 1, 1886.

TOWN CLERK'S REPORT.

BIRTHS, MARRIAGES AND DEATHS RECORDED IN THE TOWN OF NEEDHAM FOR THE YEAR 1885.

Whole number of Births,	- - -	69
" " Marriages,	- - -	17
" " Deaths,	- - -	45

BIRTHS.

Date of Birth.	Name of Child.	Names of Parents.
	JANUARY. 1885.	
1.	Grace Mary Maloney.	Timothy T. and Annie.
10.	Roy Morse Batchelder.	John S. and Ella A.

TOWN OF NEEDHAM.

FINANCIAL REPORT

OF THE

SCHOOL COMMITTEE,

FOR THE YEAR 1886.

HIGH SCHOOL, KIMBALL SCHOOL AND BUILDING.

	Schools.
Harold C. Childs, teaching 41 weeks,	$1,230 00
Lewis E. Morgan, teaching 41 weeks,	492 00
Frances A. Carpenter, teaching 40 weeks,	440 00
Martha A. Alexander, teaching 39 2-5 weeks,	433 40
Nettie Crossman, teaching 1 day,	2 20
Florence Eaton, teaching 2 days,	4 40
Frances A. Drenning, teaching 15 weeks,	180 00
R. D. Gillette, services as janitor,	256 00
Augustus Eaton, two cords wood, oak and pine,	13 00
H. E. Leland, 80,000 lbs. coal,	230 00
H. E. Leland, 4 ft. wood,	3 37
	$3,284 37

	Incidentals.
John N. Brion, mason work,	50 00
Augustus Eaton, repairs and stock,	6 58
E. C. Moulton, sundries,	6 00
Augustus Eaton, repairs and stock,	14 78
Norfolk Grocery Depot, water pails,	1 80
Jeremiah Collins, cleaning well,	10 00
Augustus Eaton, repairs and stock,	14 90
G. H. Dewing, labor on yard, etc.,	8 00
James Ford, labor on yard,	4 38
Frenyear & Razee, chemicals,	1 29
Thomas Hall, electrical goods,	2 25
T. W. Page, repairing pencil sharpeners,	1 25
Exeter Machine Co., work on pipes and boilers,	13 17
H. C. Kendall, diplomas for High School,	3 00
Geo. W. Southworth, programs for High School,	7 00
A. G. Whitcomb, desks and chairs,	103 10
Daniel Pratt's Son, clock,	5 00
Daniel F. Mann, setting glass,	50
Augustus Eaton, labor, stock and work in yard,	52 55
E. C. Moulton, sundries,	6 34
Exeter Machine Co., flue brushes,	3 00
Augustus Eaton, care of lawn and repairs,	10 25
J. E. Bell, repairing blackboards,	6 37
F. A. Bradford, repairing clock,	3 60
Dennis Crowley, labor on vault,	3 00
Augustus Eaton, lumber and repairs,	8 52
E. C. Moulton, dust-pan and dipper,	65
Benj. Clarke & Son, repairs, slate and cement,	14 36
Frenyear & Razee, electric bells,	7 30
Norfolk County Grocery, water pails, etc.,	1 95

Respectfully submitted for the Committee,

JOSEPHINE C. A. PAGE,

Secretary

Report of School Committee.

In compliance with the law of the state requiring that the school committees of the several cities and towns "shall annually make a detailed report of the condition of the public schools" with such statements and suggestions in relation to them as may be deemed "necessary or proper to promote the interests thereof," the school committee of the town of Needham herewith submit their annual report.

The scholars attending the public schools have, year by year, been slowly but steadily increasing in number until it became necessary for their accomodation to add, during the past year, one more school to those already established. This was opened in the Kimball Building at the commencement of the Fall term, making in all fourteen schools now maintained by the town. We believe that the schools as a whole are in a prosperous condition and on a substantial basis of growth, in soundness of culture as well as of discipline. While all may not have advanced in equal degree, none we think have fallen below the average standard. The work of a full school year has gone on with but little interruption, and but for the unusual prevalence of scarlet fever during the early part of the present winter it might be said that nothing has occurred to retard their progress. We think it worthy of record that at the annual examinations the schools of the town never appeared to better advantage.

In accordance with the vote of the town, the several school buildings have been named as follows: The one at Needham the Kimball School, the one at Highlandville the Avery School, the one at the Centre the Dwight School, the one at the Upper Falls the Eliot School, the one at Green-

dale the Harris School, the name of the Parker School at Charles River Village being still retained. These names were selected after careful consideration by the joint Boards of selectmen and school committee, one or two public hearings having been first given for this purpose. For obvious reasons it was thought best by the Boards that none of the schools should be named after persons now living. The Kimball School was named in memory of Rev. Daniel Kimball, well known to the citizens of Needham as a patron and friend of its early educational interests. He was a man of great learning, and for a long time the principal of a celebrated private school in the town. The Avery School was named in memory of Mr. Jonathan Avery who was one of the committee to whom the town entrusted the erection of the original building. He was a man always prominent in town affairs and to whose untiring energy, enterprise and public spiritedness the village of Highlandville is indebted for its early prosperity. The Dwight School was named in memory of Mr. Timothy Dwight whose sons, Seth and Henry, after his decease and in persuance of their "Honored Father's desire in his lifetime to give unto the Schoole in Needham a certaine tract or perciel of land lying within the bounds or limits of the Township of Dedham in that Devident of Land commonly called Natick Devident," conveyed to the town in 1727 about thirty acres of land still owned by the town and known as the school land in Dover. The Eliot School was named in memory of Rev. John Eliot, the "Apostle of Indians," whose kindly ministrations to the benighted Indian tribes of this region were so successful. The Harris School was named in memory of the late John M. Harris Esq. whose valuable services as a member of this Board, and in other positions of responsibility and trust in the town and state, are of too recent a date to need further mention here.

The committee have devoted considerable time and thought during the year to a careful revision of the regulations and coruse of study for the schools. The introduction of new text books in some of the branches taught, the progress made in methods of instruction since the course was first adopted together with the changes and improvements which time and experience have suggested, are among the causes which make a revision necessary. The work has not yet been completed, but we hope to be able to finish it without further delay. In defference to

an often expressed opinion, shared by the committee, that more time and attention should be given to the studies taught in the grammar and lower grades of our schools, the time allowed for these studies has been increased by the addition of one more year to the course, making it nine instead of eight years. By this change a more perfect and practical knowledge of the elementary branches will be acquired, those who enter the high school will be better prepared for the studies they are to persue there and at the same time a better and more thorough preparation for the business of life will be given to those whose school education is obliged to end upon leaving our grammar schools.

By an arrangement of the schools in the Kimball building made by the committee at the commencement of the Fall term the teacher in charge of the grammar grade in that building has been enabled to devote about half his time to assisting the principal of the high school in the work of that school. This arrangement is for the present quite satisfactory but it will be impossible to continue it after the annual promotions take place. It will then be necessary to employ a regular assistant in the high school if we expect it to maintain its present standard of excellence.

At the annual meeting of the town the sum of $150 00 was appropriated to paint and repair the East school house. The work has been done at an expense of $134 48. We would recommend that this year a like amount be appropriated for similar work to be done upon the Parker school house.

For a long time the water in the well at the Dwight School has been more or less contaminated by some foreign substance which gave it such an offensive odor as to make it absolutely unfit for use. After a number of unsuccessful attempts to ascertain and remove the cause of the trouble, the well has been, by the direction of the Board of Health, abandoned and filled up. It is necessary that some supply of water should at once be furnished this school. It has been suggested that a cistern might be built to receive the water from the building, which would meet the requirement. The committee would however recommend that a new well be dug by the roadside, in front of the building, to be provided with a watering trough, where it would serve the double purpose of accommodating not only the school but travelers and the public generally.

The number of persons in the town between the ages five

and fifteen years when the census was taken in May last was five hundred and sixteen.

The teachers and number of scholars in the schools of the town at the present time are as follows:

Schools.	Teachers.	No. of Scholars.
Kimball High,	Harold C. Childs,	45
Kimball Grammar,	Lewis E. Morgan,	20
Kimball Sub-grammar,	Frances S. Drenning,	29
Kimball Intermediate,	Frances A. Carpenter,	30
Kimball Primary,	Martha A. Alexander,	43
Avery Grammar,	Ella Hunt,	32
Avery Intermediate,	Anna M. Allen,	34
Avery Primary,	Isabel S. Kingsbury,	33
Avery Sub-primary,	Sarah E. Willgoose,	40
Dwight Grammar,	Frances M. Kingsbury,	37
Dwight Primary,	Mary M. Sutton,	59
Eliot, ungraded,	Ida G. Buckley,	38
Parker, ungraded,	Susan B. Holmes,	40
Harris, ungraded,	Willia Leach,	29
	Total number of scholars,	509

We recommend for the present year the appropriation of $8200 00 for schools, $700 00 for incidentals, and $500 00 for books and supplies.

Respectfully submitted for the Committe,

EMERY GROVER,

Chairman.

Selectmen's Report.

HIGHWAYS.

Owing to damage by the freshet of last winter and the extreme dry weather followed by heavy rains in the summer, the expense of repairs on highways has been larger than usual; Kenricks Bridge which was destroyed by the freshet, has been rebuilt, our part of the expense being 924 dollars. Pierce's Bridge which was partially destroyed was repaired by the Town of Dover, the expense to the Town of Needham being $133.42. The scarcity of gravel and the necsssity of carting it a long distance adds very materially to the cost of keeping our roads in repair. At the last annual meeting the subject of procuring a stone crusher was referred to the Selectmen. We have examined a stone crusher in use at Framingham and one at Woonsocket R. I., and find that they work well and give good satisfaction, We think it would be well for the town to procure one, and recommend that the subject be referred to a committee for further investigation.

SUPPORT OF POOR.

The expense of supporting the poor has been somewhat less than the previous year, the reduction being mostly on amount of temporary assistance. We have collected from the City of Newton $77.54, and from the City of Boston, $24.58, for assistance rendered to persons having settlements in those cities. The number of persons now in the Wellesley almshouse and in the state institutions is the same as last year, one of the insane has deceased, another has been added to the number.

SIDEWALKS.

The amount expended on sidewalks, one half of which was charged to abuttors, is $233.97 against $198.63 expended last year.

STREET LIGHTS.

The contract for lighting the streets was again awarded to W. F. C. Balen and we think he has performed the service to

the general satisfaction of the citizens. We would recommend that some of the street lights be relocated, and some arrangment made by which the town shall own and have full control of all lights lighted by the town.

ENGINE HOUSES.

The two engine houses have been completed with the exception of the inside finish, and the two engines and the hook and ladder truck are now kept in them. The special appropriation for plastering and finishing the inside of the houses is being expended under the direction of the committee appointed for that purpose.

FIRE DEPARTMENT.

A report of the doings of the Fire Department will be made by the Chief Engineer. We would recommend that the members of the engine companies be paid a stated sum per year in place of being paid by the hour.

ENFORCEMENT OF LIQUOR LAW.

In all cases of illegal sale of intoxicating liquors in which the evidence received has been sufficient to warrant so doing, complaints have been made against the parties making such sale, and they have been convicted. In many cases it was dificult to obtain evidence of sale, persons who would not for a moment be suspected of making a false statement seem to entirely lose their memories when called upon to testify to the sale of liquors, and when prominent citizens publish statements that what the law of the Commonwealth declares to be a nuisance, is not so, it does not very much lessen the difficulty.

CLAIMS.

The claim of Abimeleck Burrows against the town on account of gravel land has been adjusted. By a contract made in

September, 1878, the town was to remove the gravel and other material from a piece of land belonging to Burrows, within five years from the first of December, 1883, which they failed to do. We have agreed with Burrows that in consideration of twenty-five dollars which has been paid him, that the time within which the material shall be removed according to the contract is extended five years from the expiration of the original contract, which will be December 1, 1888.

In the case of the claim of Herbert Moseley against the town we were unable to arrive at a satisfactory settlement. The case was tried in the superior court at Dedham and a verdict given in favor of the town.

The claim of the town against its former collector of taxes remains unsettled. A proposition was made to refer the matter to an auditor or referee to be agreed upon by the counsel for Mr. Morton and the counsel for the town, which has not been accepted. A suit has been commenced and unless the matter is previously settled it will probably be tried at the April term of the superior court.

TOWN HALL.

The subject of a town hall will soon require consideration. The time for which the hall now used was leased has nearly half expired. We recommend that a committee be appointed to investigate the subject, and report at the next annual meeting.

STATEMENT OF EXPENDITURES

AUTHORIZED BY THE SELECTMEN FROM JANUARY 1ST TO DECEMBER 31ST. 1886.

SUPPORT OF POOR.

Worcester Lunatic Hospital, support of D. K. Ritchie from Jan. 1, 1885, to Sept. 30, 1886.	$127 80
Worcester Lunatic Hospital, support of S. H. Richardson from Aug. 1. 1885 to Sept. 30, 1886.	215 55
Asylum for Chronic Insane, support of Lena Gehling, from Oct. 1, 1885 to Sept. 30, 1886.	186 38
Danvers Lunatic Asylum, support of Jane Haywood from Oct. 1, 1885 to March 11, 1886,	77 33
Northampton Lunatic Hospital, support of Jane Haywood from March 11, to July 19, 1886,	60 80
Mass. School for the Feeble Minded, support of James L. Hochkiss from Oct. 1, 1885 to Sept. 30, 1886,	146 71
State Primary School, support of Amos E. Tivey, from Oct. 1, 1885 to Sept. 30, 1886,	52 14
City of Newton, for assistance to family of Ed. Tivey,	23 63

SUPPORT OF POOR, Continued.

Respectfully Submitted,

CHARLES C. GREENWOOD, Town Clerk.

Needham, Jan. 1887.

Report of the Board of Health.

The duties of the Board for the past year have been not unlike those of the preceding year, save in one particular, that of large increase. This may be accounted for in considerable part by the fact that since the appointment by the town of an independent Board of Health the agitation of questions of hygiene has brought the provisions of the statutes pertaining thereto more directly before the people and they have availed themselves of them whenever or wherever discomfort or disease threatened them through violation of the law.

We congratulate the town upon the fact that each succeeding year witnesses an increasing desire on the part of its citizens to elevate the sanitary standard, to purify the waters of its beautiful lakes, and make more pure, pleasant and health-giving its attractive thoroughfares and by-ways.

WORK OF THE BOARD.

The number of permits granted by the Board for keeping swine during the past year is 68. In 1885 there were 107.

Number of piggery nuisances abated,	14
" " common " "	10
" " piggeries examined,	50
" " miscellaneous complaints responded to or acted upon,	100
Permits revoked,	3

The "permit" system, continued for the past two years, has worked well, furnishing a record more or less complete, of the number of swine kept, their ownership, locality, etc., affording information approximately correct of the origin or source of any nuisance not definitely located by verbal report or letter, and will enable the incoming board to act wisely in the premises.

June 21, 1886, under special notice all piggeries of any considerable size located near the highways were removed five hundred feet distant.

It is a noticeable fact that there has been a marked reduc tion in the number of swine kept during the year. A compar

son of the records of 1885 and 1886 will show a decrease of several hundred.

HOTEL WELLESLEY.

By special request, May 24, 1886, a very thorough inspection was made of the hotel and its surroundings which has since been very thoroughly renovated and supplied with the latest sanitary improvements. The appointments are first class in every particular and it merits the confidence and patronage of the public at large as a healthful summer resort.

INFECTIOUS AND CONTAGIOUS DISEASES.

Special care has been taken in all cases reported to the Board of Health. There has been an epidemic of scarlet fever of mild type during the last three months of the year, as shown in the following list of contagious diseases reported for the year.

Diphtheria,	3
Typhoid fever,	5
Scarlet fever,	76

LIBRARY.

The Board, by the appropriation of the town, has been enabled to start the nucleus of a library which, they hope by a small amount of money expended from year to year may become of valuable service to its citizens. The number of volumes at present is thirty-one, a part of which being out of print cannot be replaced; others, foreign publications, have been ordered, but not yet received.

One of the more important duties of the Board, which has been duly inaugurated but must remain unfinished until the following season, is the restraint upon the pollution of the sheet of water known as Rosemary Lake, into which,no less than thirteen vaults or drains discharge directly or indirectly at the present time. By request of the Board these objectionable features have received the attention and condemnation of the health officer of the State Board who approves the plan adopted for the purification of this inland water, now used as a domestic ice supply. We may hope that our successors in office will prosecute this work with ardent zeal until no source of contamination exists.

The Board is not unmindful that much remains to be done in order to bring the sanitary condition of our town to a higher level, and after mature and deliberate consideration of the subject, so far as relates to piggeries, have adopted a course based upon the interests of the town, present and future, which

we hope will receive the approval of the community at large. Clothed with official authority under the statutes, as is alleged, sufficient to wipe out of existance by the single stroke of a pen, all piggeries of any considerable size within the limits of its villages proper, the Board has thought such a plan neither judicious, equitable nor praisworthy; moreover, as experience and observation have combined to show a marked minimum of disease in their close proximity.

In this connection the aim and purpose of the Board have been to draw the lines tighter and make the privileges smaller each succeeding year, until all piggeries and other nuisances in the villages are exterminated and the beau ideal of a hygiean city is fully realized.

Respectfully submitted,

H. T. MANSFIELD,
A. D. KINGSBURY,
A. M. MILLER,
} Board of Health.

REPORT OF THE FIRE DAPARTMENT.

Since my appointment May 1, 1886, the Department has been called out five times for fires in buildings.

June 25. The blacksmith's shop situated on Chapel Street., owned by F. M. Foster,was burnt with all its contents. Loss, $600.

Sept 7. Barn and stock situated on South Street owned by Levi Ladd Loss, 9,000.

Oct. 14. House and hennery, situated on Rosemary Street, owned by Henry H. Ruthvin. Loss, $150.

Nov. 7. Dwelling house situated on South Street, owned by Miss Florence Stedman. including farming tools etc. Loss, $1,300

Nov. 11. Barn and contents situated on High Rock Street, owned by Mrs. Elizabeth H. Eaton. Loss, $1,100.

There has been two fires in the woods, and one alarm given for fire out of town caused by the burning of a mill in Dover.

The board of engineers made their annual inspection on the First of Jan., 1887, and found every thing in splendid order, apparatus in good condition, and the house neatly kept. We find our house very convenient and just what we needed.

Most of the fires were situated where water could not be obtained, but at the fire on Chapel Street, when water was pleanty, the department did effective service in protecting the surrounding property.

I recommend that a reservoir be constructed on Hunnewell Street, opposite Alexander Lynes' factory, which would be a protection to one of the most thickly settled portions of the town. I also think it would be for the interest of the town to pay the Department a yearly salary.

I thank the Assistant Engineers and members of the Department for their cordial support.

GEORGE ADAMS,

Chief Engineer.

ASSESSOR'S MINORITY REPORT.

The undersigned in justice to himself and to those who gave him their support, would like to have the people of Needham know that most of the valuation was made up without my knowledge or vote, and without any notice of the time and place of meeting to adjust such valuations as were left undecided while on the street work. They were decided at private residences, away from the assessors' office, without my knowledge or consent, and the first I knew of the tax rate was from other sources. The loss on polls and real estate is due to the hurried and private means by which the business was done. Instances have occurred where parties have been assessed in the presence of a full board and all parties agreed, afterwards the other members of the board have asked the parties in my absence if they were satisfied, thus endeavoring to undo what had been done by the full board.

Respectfully,

EVERETT J. EATON.

SELECTMEN'S REPORT.

The Selectmen respectfully submit the following report for the year ending Dec. 31, 1887 :

We have employed Mr. N. Wales and Mr. Wm. Pierce as superintendents of streets, and they have performed their duties faithfully.

The expense of repairs on highways has been somewhat larger than was expected, on account of the iron bridge over Charles River on Dedham Avenue, which was so badly damaged during the freshet of 1886, which necessitated the extensive repairs amounting to $144.92, and we have had quite a number of culverts, during the past year, taken up and rebuilt. We also found some of the outlying roads in such bad repair that quite large amounts had to be spent to make them suitable for public travel ; also quite an amount has been expended in repairing the railings at dangerous places, and the different approaches to bridges, etc.

Stone Crusher.

We would again call your attention to what seems to us almost a necessity, for the future, being convinced from the experience of other towns, that crushed stone is the best material. We have examined a crusher, called the Farrel & Marsden, made by the Farrel Foundry & Machine Co., and recommend it to the town as being the best machine now in the market, costing, with engine, about $1,500.00 delivered here. We would call the attention of the citizens of the town to the question of gravel for the different parts of the town, as our supply in various quarters is limited.

Poor.

Our Poor at Almshouse in Wellesley has changed somewhat since last year. The following have been added, viz: Sarah Gillow, Hannah Ricker, and Henry Strickenback. Two have died, viz: Henry Strickenback and Julia Staples. We expect to get some back board from administrator of Julia Staples. The board of Hannah Ricker is provided for during the coming year. J. L. Clarke has a military settlement, of which we only pay one third. We take this opportunity to make some explanation as to the large expenditure in the case of Sarah Gillow, an unusual sickness, coupled with old age, rendered it impossible to do otherwise. The number in the different State Institutions is the same as last year.

Engine Houses.

The Engine Houses have been finished at an expense of $30.41 over appropriation.

Fire Department.

A special report will be made by Chief Engineer.

Liquor Law.

We have carried out the instructions of the town, in every instance prosecuting wherever we have found parties selling, having expended $189.58.

Claims.

The case of Town vs. Morton, has been argued before the judges of the Supreme Court. A decision has not been rendered as yet.

Sidewalks.

The amount expended on sidewalks has been $72.00, one half of which has been charged to abuttors, and $25.56, which was caused by raising grades of streets, the abuttors were not charged.

Street Lights.

The contract for lighting the streets was again awarded to W. F. C. Balen, and we think he has performed the service to the general satisfaction of the citizens. We have discontinued the lighting of seven lights at lower end of Highland Avenue, on account of destruction caused by vandals. We have repeatedly repaired them, offered rewards, and appointed special officers to watch, but have not been able to bring the offenders to justice.

Estimate of Appropriations for 1888.

We would recommend the following appropriations for the coming year:

Highways,	$3,500 00
Support Poor,	2,600 00
Removing Snow,	200 00
Sidewalks,	200 00
Street Lights,	1,000 00
Printing and Stationery,	350 00
Salaries of Town Officers,	1,900 00
Police,	250 00
Fire Department,	800 00
Miscellaneous Expenses,	750 00
Rent Town Hall,	650 00
Memorial Day,	100 00
Interest,	400 00
Abatement Taxes,	150 00
Liquor Law,	200 00

STATEMENT OF EXPENDITURES

AUTHORIZED BY THE SELECTMEN FROM JANUARY 1ST TO DECEMBER 31ST, 1887.

REPORT OF THE FIRE DEPARTMENT FOR 1887.

The past year has been one of great loss of property in Needham.

March 26, the shop and machinery of Geo. Adams, Chestnut street, between 11 and 12 o'clock P. M., was destroyed by fire ; loss $650 ; insurance $300.

April 18, the house situated on Great Plain Avenue, owned by Walter Bowers, was destroyed by fire ; loss $1,500 ; insurance $600.

May 12, the barn situated on Webster street, owned by James Smith, was destroyed by fire ; loss $350 ; insurance $150.

May 13, Odd Fellows' Building was destroyed by fire ; loss $18,000 ; insurance $11,000.

July 14, James McKeon's house and barn, at Charles River Village, was destroyed by fire ; loss $4,500 ; insurance $3,500.

August 27, D. F. Harrington's house, situated on Great Plain Avenue, caught fire, but through the efforts of the Fire Department, sustained but $1,000 damage.

Too much cannot be said in praise of the members of the two Fire Companies. They have promptly responded to every alarm, and when water has been obtained the citizens can see for themselves the good work they have done. The Board of Engineers wish to take this method of thanking Companies 1 and 2 for the cordial support given the Board in time of need.

Fire alarm bells are much needed, as we have no way of giving an alarm, and in two instances we were delayed 15 minutes in getting the engines out because we had no way to give suitable alarms. The Board would recommend that one bell be placed on each engine house for the purpose of ringing an alarm in case of fire.

The Board also recommend that the town purchase 300 feet of new hose, as that we have now is getting worn out.

GEORGE ADAMS, Chief N. F. D.

GEORGE E. JONES, Secretary.

TOWN OF NEEDHAM.

FINANCIAL REPORT

OF THE

Respectfully submitted for the Committee,

EMERY GROVER, Chairman.

REPORT OF SCHOOL COMMITTEE.

The town of Needham has maintained during the past year fourteen public schools. The whole number of pupils attending these schools, as shown by the enrollment sheets of the school registers, is 581, namely 292 boys and 289 girls. The whole number of persons in town between five and fifteen years of age on May 1st as shown by the census which the law requires the committee to have taken was 483, 239 boys and 244 girls. The large excess in the number of pupils attending school over the number shown by the census is due in part to new comers but mostly to pupils in the schools who are over fifteen years old. After making a proper allowance for these, it appears, that very nearly all the children in town of legal school age have attended school. But one instance has been brought to the attention of the committee during the year where a child has been kept out of school in violation of the statute.

The average total membership of the schools was 481. The average attendance 422, or in other words the average attendance has been about eighty-eight per cent. of the average membership. The percentage of attendance in the different grades was as follows: High school, 94; Grammar schools, 91; Intermediate schools, 86; Primary schools, 85; and ungraded schools, 87. These percentages are quite satisfactory and will compare favorably with the average throughout the state. That the attendance of the pupils should be as constant and punctual as possible has been the earnest endeavor of both the teachers and committee. The Rev. Daniel Kimball once observed in a school report written more than

forty years ago, and it is no less true today, that "The reasons for constant and punctual attendance are far more important than is generally imagined. By want of such attendance, the progress of improvement in schools is greatly retarded. A portion of the classes must by this means be kept in check, or other portions be permitted to pass over exercises without preparing them. Good teachers are mortified and grieved and children are made to suffer in their education by want of thoroughness in their studies, arising

from this state of things." The largest average membership for any month, 507, was in November and the smallest, 451, in January, while the highest per cent. of attendance, 94, was in September and the lowest, 83, in January. 217 visits not including those of the committee have been made to the schools, 33 by men and 184 by women. What a disproportion! We leave its explanation to the reader.

The following tables compiled from the school registers will be of service to those interested in school statistics.

Interruptions occasioned by sickness, change of teachers or other causes have been less frequent during the year than usual and a corresponding advancement in the progress of the schools has been manifest. As anticipated by the committee, it became necessary after the annual promotions to engage an assistant teacher for the high school in order that its creditable standing might be maintained. Results have already shown that this action was judicious and could not have been delayed without great injury to the school.

Early in the fall Mrs. Josephine C. A. Page, who for the past six years has ably served the Board as its secretary, having accepted a position under the government at Washington, tendered her resignation as a member of the School Committee. At a joint meeting of the Boards of Selectmen and School Committee, held October 24th, Mrs. Adeline E. Harris was unanimously elected to fill the vacancy thus occasioned and she has since served as secretary of the Board.

The work of painting and repairing the Parker school house has been accomplished at an expenditure within the appropriation for that purpose and the building now presents a much more creditable appearance. The Dwight school house stands equally in need of paint and repairs and the committee recommend that the sum of $150 be appropriated for that purpose.

It will be seen from an examination of our financial report that while the expenditure for schools, which includes the salary of teachers, fuel and care of houses has been kept well within the amount appropriated, the expenditures for incidentals and for books and supplies have been somewhat in excess of the appropriations. The excess in the matter of incidentals is due to the grading of the school yards at the Plain and Highlandville, a work which it seemed to the committee ought not to be longer delayed. In the matter of books and supplies the strictest economy has been observed by the committee, only such books as were actually needed have been purchased and when books were not in use in a school they have been gathered in to be used where

needed in place of new ones. The books originally purchased when the law requiring them to be furnished by the town first went into effect are now becoming worn out, and we see no way under the present system of supplying books of diminishing the expense. We are of the opinion that it will be necessary, hereafter, to appropriate for this purpose a sum equal, at least, to the expenditure of the past year. There has been paid into the treasury of the town during the year for the tuition of pupils from Dover, the sum of $294.50. This sum with the unexpended balance of the appropriation for schools would be sufficient if used for that purpose to more than cover the above deficiencies.

We recommend for the present year, the appropriation of $8,500.00 for schools, $600.00 for incidentals, and $700.00 for books and supplies.

Respectfully submitted for the Committee,

EMERY GROVER, Chairman.

REPORT OF WATER COMMITTEE.

The committee elected at the last March meeting to investigate the subject of a water supply for the Town of Needham, have attended to that duty carefully, faithfully and thoroughly. They have visited water works in process of construction, and those complete and in working order. They have consulted with engineers and others familiar with the subject of water supply. They have held frequent consultations with the State Board of Health, and have had the benefit of two visits of their engineer to the Town of Needham. They have employed an expert to put down test wells and have had the water thoroughly analyzed. They have employed a competent engineer to make surveys and estimates, and for the information of the public present his full report.

A. E. MILLER, M. D., Chairman.

"Mr. Chairman and Gentlemen: In response to the request of the Water Committee, I respectfully submit the following report in regard to the practicability of supplying the Town of Needham with water for domestic and fire service. In making this report I shall not tire you with the details and many lines of investigation that have been made by the Committee and myself, but give you, as well as I am able, the important facts and points to be remembered and considered.

I can hardly express to you how deeply I feel the responsibility resting upon me, and I fully realize the importance

of the question before us for consideration.

The first question for us to consider is the quantity of water required to supply the town.

According to the census of Massachusetts for 1885 we find the population of Needham to be 2586, and according to the best authorities and statistics, we find that 90,000 to 140,000 gallons would be ample to supply our present needs. But we must take into consideration the growth of the town. Consulting statistics once more, we find that in the census of 1860 Needham, which then comprised the town of Wellesley, had a population of 2658, showing that we have actually doubled our population in 25 years, and also from 1870 to 1880 there was an increase of about 1,600. In comparing the growth of Needham with other towns, we find that no other town in the whole county has increased so rapidly in that time, in proportion to its size, so that, in that respect it is the banner town of the county. Now we may judge somewhat by the past what the future growth will be, but you must understand that any estimate we can make may be very wide of the mark, for the future is always uncertain. Therefore, as nearly as may be, we compute the growth of the town for every ten years for the space of 30 years, and we find

in 1890	a probable	population of	3,500
1900	"	"	4,394
1910	"	"	5,248
1920	"	"	6,122

But this is only considering the growth of Needham without reference directly to the fact that we are such near neighbors to Boston. Therefore we may safely increase our estimate of the probable growth somewhat, and consider that Needham will, in 30 years hence, have a population of 10,000. Hence for the present we must prepare for about 200,000 gallons per day, and arrange for an increase within 30 years to about 500,000 gallons daily.

Now we must determine what source of supply we have at hand adequate to our needs.

Needham is blessed with an ample quantity of pure water,

a large number of springs, brooks and valleys, not to mention Charles River, and among them are many points of supply possible. No wonder it has been said that there are as many theories of the proper source of supply as there are people in town. Newton takes about 800,000 gallons from our gravel banks, and Wellesley's water is taken from springs very near our Rosemary Brook ; still we have ample for our needs remaining. After considering the many possible sources of supply, we have determined upon two that evidently are especially worthy of more careful examination, being more practicable than any of the others. These are the valleys of Colburn's Springs and Alder Brook on the east, and Rosemary Meadows on the west. The approximate water shed of Rosemary meadow and valley is about 2.2 square miles, and as one half a million gallons may be estimated as in round figures the average yield per square mile of available rainfall in dry seasons, we find that we may count upon the natural daily yield to be about 1,100,000 gallons. The area of Colburn's valley water shed is about 1.5 square miles, and its daily available yield will be 750,000 gallons.

By guaging Rosemary Brook we find in August a flow of about a million and a half gallons in 24 hours. The difference of flow of the two valleys is due to the fact that Rosemary valley is more of a natural storage basin than Colburn's, and the rainfall, instead of passing freely off, is absorbed and retained, and also that the water shed is larger.

In order to investigate more fully the nature of the water-bearing material in these valleys, it was deemed best to take soundings at various points of interest.

On Thursday, Aug. 25, Calvin Horton & Son, by order of the Committee, began driving two-inch iron pipe near Dedham avenue, on Dr. Leach's land, at the junction of Alder Brook and a stream flowing from Colburn's spring, the object being to intercept the ground waters of both streams and get an idea of the soil at different depths.

In this vicinity ten wells were driven, and careful observa-

tions made, and samples taken of the materials through which the pipes passed. I have the samples in my possession, and would be pleased to show them to any who may desire to see them. The wells vary in depth from 18 to 28 feet, and pass through material varying from clay and sand to coarse, water-bearing gravel, and by the aid of hand pumps discharge all the way from 16 to 60 gallons per minute. The best results were obtained from the wells on the north-east side of Dedham avenue.

In the western or Rosemary valley we drove wells at the foot of West street, near Central avenue, and also near some large springs on what is called the Saunders farm, where we drove four wells at the margin of the meadow in the gravel, as out in the meadow the peat was very deep indeed, and so soft that two or three men were able to thrust a two-inch pipe down nearly 40 feet by hand. I have with me a profile of the valley, showing the depth of the peat at various points which I determined by soundings. At 100 feet out from shore I found 31 feet of peat. At 240 feet out, 36 feet, and at Rosemary Brook 41 feet. The water-bearing gravel is quite abundant in both valleys, is coarse and of a reddish brown color. Evidences show that there is a very plentiful supply of water here. In comparing the two valleys, Rosemary has advantages so far as quantity of water is concerned, while on the other hand the Colburn Valley has advantages in the way of present and future excellence of the water.

One of the great objects of having a water supply is to have a means of putting out fires. In order that we may do so by direct hydrant use, it is necessary to have sufficient water pressure or head, as it is called, to throw a stream of water with effect to the roofs of our highest houses.

To accomplish this it is customary to select the highest hill as the site of a reservoir. But if the hill is not high enough, an iron standpipe is placed on its summit, of sufficient height to give the required head.

In order to determine the relative height of hills, streets,

etc., levels were taken, referred to Boston base, with the following results, viz:

Bird's Hill,	310 feet.
Ryan's Hill,	268 "
North Hill,	257 "
Dewing's Hill,	230 "
Highlandville Common,	185 "
Needham Common,	168 "

Hence you see that Bird's Hill is the highest ground in town, and would give us a head of 80 feet on Dewing's hill, 125 at Highlandville, and 142 at Needham. or a pressure of about 61 lbs. per square inch, which would be enough to give a fire stream of about 100 feet vertically.

An analysis of the water of the two valleys by the State Board of Health is as follows:

	Unfiltered.			Residue.			
	Ammo.	Alb. Ammo.	Chlorine.	Fixed.	Volatile.	Tot'l.	Hard's.
Rosemary Meadow. Sample 1	0.0066	0.0050	0.80	4.	2.90	6.90	2°
" " 2	0.0070	0.0024	0.40	2.90	3	5.90	1½°
Colburn's Meadow. Sample 1	0.0000	0.0010	1.80	3.10	4.20	7.30	1½°
" " 2	0.0000	0.0028	0.60	1.50	2.50	4.	1°

Clear and colorless.

No nitrates by ferrous sulphate.

No odor.

In no case was there more than very slight charring on ignition of residue.

The analysis of the water Wellesley is using, as copied from their report;

Inorganic matter,	6.00
Organic,	1.25
Total residue at 212 F.	7.25
Ammonia free,	.012
Ammonia albuminoid,	.009

The estimate of cost of plant comes last but not least, before us for consideration.

In making this, I have endeavored to keep the figures as low as possible, and still have them represent the cost of thorough work and good materials, in other words substantial work in every way, and if we must economize, do so at the expense of length of street mains, but not in size or quality.

Baring changes in cost of materials, etc., I think the works outlined could certainly be built at a cost not exceeding the estimate.

I have considered the reservoir to be located on Bird's Hill, with a pumping plant located in either valley.

In piping the streets I have estimated on the best of cast iron pipe, and hydrants of large size and of the best make.

Cost of reservoir,	$21,000	
Pumping machinery,	5,000	
Pumping station,	5,000	
Coal sheds,	1,200	
Galleries.	4,000	
Total,		$27,200
8 miles of pipe, 4 in. to 12 in. diameter;	$31,636	
Special castings,	1,728	
Cost of laying pipe,	12,686	
40 gates,	800	
64 hydrants, or 8 per mile, at $35,	2,240	
Incidentals and engineering,	10,000	
Land damages,	2,500	
Total,		$61,590
Making in all,		$88,790

ANNUAL REPORT OF BOARD OF HEALTH

OF NEEDHAM, FOR THE YEAR ENDING DECEMBER 31ST, 1887.

ORGANIZATION.

The membership of the Board for the year is as follows :

A. D. Kingsbury, M. D., Chairman.
A. M. Miller, M. D.
Mark Lee, Secretary.

LICENSES.

George E. Eaton and C. W. Morton were licensed as undertakers for one year ending June 30th, 1888.

At the commencement of the year the following circular was issued:

"On and after the date and issue of this circular, and until otherwise provided for, the regulations herein made will continue in force.

1. No person will be permitted to keep swine within the limits of the town without a written permit stating the number to be kept, locality, etc.

2. On and after the 10th day of May, and until Nov. 1st next following, no person will be permitted to keep more than two swine within 500 feet of any highway in the town, without special permission of the Board.

3. All fertilizer from city swill fed swine, when removed from pens between May 1st and Nov. 1st next fol-

lowing, and placed upon land, must be immediately covered with earth or loam sufficient to prevent obnoxious odors.

4 From April 1st to Nov. 1st no person will be permitted to transport city swill, night soil or other offensive matter through the highways of the town, except in closely covered receivers.

5. The running at large over highways of swine, young or old, is strictly forbidden.

A. D. KINGSBURY,
A. M. MILLER,
MARK LEE.
} Board of Health.

Needham, Mass., May 1st, 1887.

HEALTH OF THE TOWN.

The health of our town and freedom from any epidemic of infectious and contagious diseases during the past year, is a matter for sincere congratulation.

The report herewith shows that the diseases have been widely and universally scattered throughout the limits of our town, and that in no one or more parts thereof, has there been considerable disease indigenous to any locality.

NUMBER OF CONTAGIOUS DISEASES REPORTED FOR THE YEAR.

Scarlet Fever, ...	29 cases.
Typhoid Fever, ...	3 cases.

The cases of scarlet fever above recorded were distributed over twenty-one streets of our town, and occurred during the year as follows:

January, 4; February, 2; March, 7; April, 7; May, 2; June, 4; July, 1; August, 1; December, 1.

The cases of typhoid fever occurred as follows:

Two on Charles River street, C. R.V., in the month of April

and one (imported) on West street, in the month of August.

WORK OF THE BOARD.

The labor of the Board has been mainly the execution of the provisions of Public Statutes relative to vaccination, contagion, abatement of nuisances, contamination of wells, cisterns, springs and waters used for domestic purposes.

Not less than 100 complaints from citizens have received the official attention of the Board, and 36 letters have been written in prosecuting the work. Twenty-six nuisances have been abated or abolished.

Referring to the water used as a domestic ice supply, known as the Rosemary Lake, a restraint upon the pollution of which was inaugurated last year, the Board will report that, apparently, the local and private interests of a few of its citizens have exerted a somewhat paralyzing effect upon the efforts made to lesson the risk of contamination, by questioning the jurisdiction of the State Board in the premises, maintaining that this water is not an inland water in the sense of the term used in the Statutes, thus affording another example of the indifference on the part of some to the positive and indisputable connection between filth and disease, losing sight of the fact that all citizens have a common right to the comfort and pleasure of pure air, uncontaminated water and healthy soil. Such indifference, carelessness or love of gain should not be allowed to conflict with sanitary laws "pro bono publico." The advice of the Health officer of the State Board to submit this question to the court for decision has not been taken advantage of thus far, hoping that by some indulgence, expense to our town might be avoided. The Board recommend, however, that this subject receive the early attention of the Health officers the ensuing year.

DRAINAGE.

It is no longer a disputed fact that sewage about our dwellings and surface water standing in our streets penetrating the soil may become a source of disease.

The Board would enjoin upon all who maintain dwellings and other property, a watchful care over the disposal of sewage from sink drains, water closets, etc., and that the too common practice of piling ashes in close proximinity to dwellings and dressing these "ash heaps" with all sorts of refuse vegetable matter or house offal, be discontinued. Moreover, the Board respectfully recommends that an appropriation be made sufficient to extend the underground drains with catch-basins along the main thoroughfares of our villages to more thoroughly remove the surface water, which at certain times or seasons during the year, with the aid of decaying vegetable matter, may become stagnant and prolific of disease.

PIGGERIES.

The Board has found it necessary, after repeated complaints from citizens, to abate many nuisances in the shape of piggeries carelessly kept, and in one or two instances, after having been adjudged nuisances at public hearings, to abolish or remove some and submit others to the court for decision.

We may rightly hope for and expect a large increase in the population of our town in the near future, and the present immunity from disease herein before referred to, cannot be depended upon in the future, if no restraint is placed upon those who carelessly conduct the swine traffic. Residing, in large numbers, in the vicinity of decomposing matter is sure to cause disease and while it may be no easy task to prove, with our scattered population at present, that disease is more prevalent in proximity to piggeries, it was clearly shown through evidence submitted to the court by many of our leading citizens, that the noisome odors arising from large piggeries are depressing to the vital powers of those who inhale them, thus rendering them less able to resist disease.

Our town with its soil in great part dry, its hills of some considerable height breaking its surface and drained on almost all sides by the river Charles, has in years past

achieved an enviable notoriety as a health resort, and lest none of its prestige be lost, we must by careful scrutiny and vigilant effort, maintain a high order of sanitation.

Respectfully submitted,

A. D. KINGSBURY,
A. M. MILLER,
MARK LEE.

TOWN CLERK'S REPORT.

BIRTHS, MARRIAGES AND DEATHS RECORDED IN THE TOWN OF NEEDHAM FOR THE YEAR 1887.

DEATHS.

Jan. 26 Elizabeth (Argyle) Jones, England, 75y, 6m, 28d, paralysis and heart disease.

Jan. 31 Elizabeth G. Meehan, Needham, 15y, 5m, 15d, phtisis pulmonalis.

Feb. 2 Harry Scotton, Needham, 1m, 28d, supposed to be pulmonary disease.

Feb. 3 Mary (Palmer) Alden, Charlestown, 73y, 2m, 29d, cancer of breast.

Feb. 14 Charlotte (Knights) Tibbetts, Poland, Me., 74y, injury and shock, the effect of an accident.

March 15 Alonzo M. Mace, Readfield, Me., 64y, 21d, hydro peritoneum.

March 19 Frank Burrows, Needham, 4y, 11m, 9d, pneumonia and complications.

March 27 Emma Mabel Whall, Newton, 3y, 9d, pneumonia with cardiac disease.

April 26 Lydia (Cleaves) Dennett, Lyman, Me., 84y, 6m, 11d, chronic pulmonary congestion.

May 5 Patrick Corkery, Ireland, 80y, pneumonia.

May 15 Catherine (Barry) Brennan, Ireland, 56y, general debility.

May 26 Martha (Fisher) McIntosh, Needham, 78y, 1m, 23d, old age.

May 26 Eliza (Bowers) Hines, Pepperell, 73y, 10m, 26d, cardiac apoplexy.

May 27 Susan M. H. Cowell, Needham, 1y, 8m, 15d, measles, cerebro spinal meningitis.

June 30 Alice V. Reed, Boston, 4m, 14d, pulmonary disease.

July 2 Sarah E. (Barry) Hale, Boston, 51y, 6m, 14d, heart disease.

July 21 James Denning, Newton, 25y, phtisis pulmonalis.

July 25 Richard Boynton, Salem, 78y, 8m, 19d, aortic obstructive with mitral regurgitation.

Aug. 15 Mary A. Quinn, Boston, 27y, phthisis.

Aug 27 Francis D. Buckley, Needham, 4m, 10d, cholera infantum.

Sept. 3 Frederick H. Kennedy, Needham, 1y, 28d, pneumonia, whooping cough and convulsions.

Sept. 8 ——Buckley, Needham, stillborn.

Sept. 16 Elizabeth (Fleming) Risk, Scotland, 90y, 3m, 17d, dysentery, also sub-acute inflammation of bowels.

Sept. 20 Leonard Smith, Needham, 81y, 8m, cardiac exhaustion.

Sept. 26 Charles H. Shaw, Pennsylvania, 35y, alcoholism.

Oct. 7 Clara Dungan, Needham, 2m, 6d, dropsy.

Oct. 11 Mary A. (Byno) Kingsbury, St. John, N. B., 45y, 3m, 18d, phtisis pulmonalis.

Oct. 11 Henry F. Barrett, Boston, 27y, 11m, 11 d, phtisis pulmonalis.

Oct. 15 Michael O'Keefe, Ireland, 53y, pneumonia.

Oct. 20 George L. Kingsbury, Needham, 74y, 5m, 22d, chronic cystitis.

Oct. 25 Ellen (Minehan) O'Hearn, Ireland, 37y, pneumonia.

Nov. 1 Melvina A. Slaney, Needham, 4y, 4m, 25d, membraneous croup.

Nov. 21 Asher S. Titus, Lyman, N. H., 80y, 10m, 5d, cardiac paralysis.

Nov. 27 Nina B. Smith, Needham, 1y, 5m, 7d, acute laryngitis oedema of glottis.

Dec. 10 Ellen Shine, Needham, 1y, 11m, 24d, cerebral meningitis.

Dec. 11 Henry H. Barrett, Walpole, N. H., 62y, 7m, 8d, pneumonia.

Respectfully submitted,

CHARLES C. GREENWOOD, Town Clerk.

Needham, Feb. 1888.

SELECTMENS' REPORT.

SELECTMENS' REPORT.

The Selectmen respectfully submit the following report for the year ending Dec. 31, 1888:

Highways.

In accordance with a vote passed at the annual meeting, but one Superintendent of Streets was appointed. Nathaniel Wales received the appointment, and has had charge of all the work on highways, except about two hundred and fifty dollars that was spent in Charles River Village, under the direction of the Highway Surveyors.

Owing to the smallness of the appropriation, and also by the fact that bills to the amount of about $150 were carried over from last year and paid this year, we have been unable to do any very extensive work, but have spent most of the money in necessary repairs; but by planning short hauls, a good deal of ground has been covered, and some thorough work accomplished.

Late in the fall, after the leaves had fallen, the road-scraper was freely used, and the accumulated debris of the summer months cleaned out of the gutters, so that drainage has been better in many places.

The severe freshets in the spring, followed by an almost unprecedented wet season and thus far open winter, have put the roads to a very severe test, and should the mild weather continue the remainder of the season, a much larger appropriation than usual will be required to put the highways in proper condition.

Stone Crusher.

We have thoroughly investigated this matter, and find that only first-class plants give satisfaction. We have accordingly purchased the latest and most improved Atlas engine and boiler, made in Indianapolis, Ind., and the largest sized Stone Crusher made by Farrell & Marsden, of Ansonia, Conn, same as was purchased this year by the city of Newton. Both engine and crusher are mounted, and can be easily transported to different parts of the town.

As no appropriation was made for locating and operating the plant, we have covered it for the winter, corner of Great Plain Avenue and Marked Tree Road.

As we did not have money enough to purchase a road-roller without buying a cheaper and therefore poorer engine, and boiler we concluded to omit the same, and recommend the town to appropriate $225 for that purpose. We have retained one hundred dollars till the machines are put in operation to the satisfaction of the Selectmen.

Sidewalks.

We have spent $72.12 where the abutters pay one-half the expense, and the balance, $148.37, in repairs, mostly on Great Plain and Highland Avenues, and have no doubt it is appreciated by all those who have occasion to travel on said streets.

Widening Webster Street,

As agreed upon by the Selectmen of 1887.

We found an agreement with James H. Fanning, in consideration of land given, to widen Webster street near the corner of Dedham avenue, and also to fence and bound the same.

The agreement has been carried out to the satisfaction of all parties, at an expense of $161.16, and is a very great improvement to that part of the street.

Removing Wall.

The widening of Great Plain Avenue, near the residence of Geo. H. Gay and others, has been accomplished within the appropriation, and a very substantial wall built by Jerry Collins.

This finishes the work of removing wall that was commenced four years ago; but some money could be well spent in grading the road thus widened.

Widening and Straightening Great Plain Avenue.

The County Commissioners have ordered the above-named avenue to be widened and straightened between Noyes Street and the residence of Curtis McIntosh,

"To be built in a thorough and workmanlike manner, with suitable culverts, gutters, and sidewalks where needed, the road-bed to be built in the centre of the location, as laid out by them, at least twenty-two feet wide, covered with at least six inches of good gravel in the centre, and to be completed within eighteen months from Nov. 19, 1888."

Poor.

A detailed account of the poor will be found in our financial report. It is well worth the careful attention of every citizen. The number of our insane and feeble-minded in State institutions remains the same as last year.

Most of the poor whom we support in full are inmates of the Wellesley Almshouse. They are all old people, and the best we can do for them is to keep them comfortable the few remaining years they may live. One change has taken place there during the year. J. L. Clark, who has a military settlement, of which we pay one-third, left the Almshouse about August 1st and has not returned.

We have investigated the premises, and find the rooms well kept and the inmates comfortable.

There are a few persons, as in former years, who receive from month to month small sums, which, added to what they

can earn, help them to live comfortably. Others, who only need fuel in the winter season, those are small amounts, and the money is well spent.

Of the new cases, John Parramore was very sick for three months before he died. During the latter part of the time we were obliged to hire watchers to take care of him, making quite an expense; but the circumstances of the case demanded all that was done for him.

Mrs. Charles Shaw and family of four children have received a large amount; but the widow and the fatherless need our protection, and as she takes good care of the children and assists somewhat in their support, we think we could not do otherwise than has been done.

Thomas Leach and family, of Upper Falls, were found in a very destitute condition. Mr. Leach is in very poor health, and his wife insane. We have done what we could to relieve their suffering, and they are now as comfortable as can be expected.

John Poyner and family, consisting of eleven persons, received some assistance during the early part of the year, but since August Mrs. Poyner has been very sick and helpless, requiring constant care, so that we have been obliged to wholly support the family. It has been a question with us whether we had not better put Mrs. Poyner in some hospital and the children in homes, but have been deterred from adopting the plan by the hopes that she would recover so as to be able to care for herself and children.

We have exceeded the appropriation because bills of 1887, to the amount of $222.70, were left unpaid.

You will also see by the financial report that some money spent for the support of the poor has been refunded.

Cemetery Lot.

We have purchased four lots in the cemetery, including those already used by the town, and markers to locate the graves. They have been well graded and made ready to

seed down in the spring, and we trust the incoming Board of Overseers of the Poor will finish the work we have commenced.

Street Lights.

The street lights were put in thorough repair early in the season, and new lanterns purchased in the place of those demolished on Highland Avenue, and thus far we have been able to maintain them. All the posts have been painted uniformly black and white, two coats, which not only adds to their neat appearance, but prevents decay. The contract for lighting was awarded W. F. C. Balen, who, as in the past, has done the work well.

Rent of Town Hall.

On account of leasing more room in accordance with a vote of the town, and paying rent in full to Jany 1, 1889, —fourteen months—we have exceeded the appropriation. We suggest that, in future, all the expense, such as janitor, lighting, and heating, be put under this appropriation, so as to readily see the cost of maintaining our Town Hall. We have received for letting the hall $255.

Liquor Law.

Very little has been expended in this department owing to the thorough work done in the past few years. By appointing extra police at the Upper Falls, the liquor business in that district has been somewhat checked, although, no doubt, some is being sold in private dwellings. The officers have found it difficult to procure evidence that would warrant an arrest.

Law.

The case of Town *vs.* Morton has at last been decided against the Town. Items of expense will be found among the miscellaneous.

Police.

A bill of $24.00, remaining unpaid in 1887, accounts for the deficiency in this department.

We are conscious that rowdyism is increasing in our villages; and unless some prompt measures for its suppression are adopted, a paid night police will become a necessity.

Reservoirs.

Believing that before this time the Town would have done something definite about a water supply, we have put off building the reservoirs. It is now so near March meeting, perhaps it is well to let them remain for further consideration at that time.

Vault.

At a meeting in July, $350 was appropriated to build a vault for the storage of Town books and records at the rear of the Town Hall. Estimates furnished required more than double the amount appropriated, and we concluded to wait till the annual meeting and recommend the purchase of a safe.

Addition to Kimball School House.

The State Inspector of Public Buildings ordered a fire-escape put on the rear of Kimball school-house. We have consulted with the School Committee and had plans and specifications drawn up for a tower, the same style of architecture, and finished inside same as the present building. The cost has been estimated at from $1,200 to $1,500; but we think, with cheaper inside finish, the expense may be reduced to $1,000, which plan we propose to adopt.

Water.

Upon petition of Edward T. Baker and others, we granted the privilege of laying water-pipes and putting in hydrants on Grove Street, from Wellesley line to Hotel Wellesley, connecting with the Wellesley Water Supply, on condition

that they assume all the cost and hold the Town harmless for any damage caused by digging up said highway and laying pipes; furthermore, to sell at a fair valuation the plant, should the Town of Needham ever want to become a purchaser. The contract has been signed, and we expect to receive the required bond for the faithful performance of the same in a few days.

MARK LEE,
F. P. GLOVER,
THOMAS SUTTON,
} *Selectmen of Needham.*

APPROPRIATIONS.

The Board of Selectmen and School Committee selected Everett J. Eaton, Edgar H. Bowers, Arthur Whittaker, Henry Blackman, Levi Ladd, Curtis McIntosh, Wm. H. McIntosh, Alexander Lynes, and William Gorse, to act with the above board as a Committee on Appropriations.

A public hearing was held in the small Town Hall Tuesday evening, January 29, 1889, at 8 o'clock.

The committee organized by the choice of Edgar H. Bowers as chairman and Thomas Sutton secretary. After hearing the views of those present, the committee adjourned to Saturday evening, Feb. 2, at eight o'clock.

At the adjourned meeting it was voted to recommend the following appropriations for the ensuing year:

Highways,	$4,000	Heating, lighting, care and rent of Town Hall,	$900
Sidewalks,	500	Memorial Day,	100
" Concrete where the abutters pay one-half	150	Street Lights,	1,000
Schools,	10,000	Interest,	400
" Incidentals,	600	Abatement of Taxes,	200
" Text Books and Supplies,	700	Liquor Law,	200
" Painting and repairing Kimball School-house,	150	Chief Engineer,	50
Addit'n to Kimball School-house,	1,000	Safe,	300
Poor,	2,700	Police,	300
Snow,	200	Street Roller,	225
Printing and Stationery,	350	Public Library,	300
Salaries,	2,000	" " Dog Tax,	456
Fire Department,	1,000	Balance of App. of 1888,	127
Miscellaneous,	600	Widening and straightening Great Plain Avenue, to be finished in one year, and the balance borrowed,	1,000

THOMAS SUTTON, *Sec'y.*

Report of Needham Fire Department for 1888.

But few fires have occured this year, the first being the tenement owned by William Carter, situated on Hillside Avenue, May 7. Loss $1,200, insured $800.

Oct. 13. Building owned by Caroline W. Morton, situated on the Westerly side of Highland Avenue. Loss on building and contents $1,200, insured $800.

Nov. 12. House owned by William Carter, situated on the easterly side of Central Avenue. Loss $1,000, insured $600.

Nov. 17. Shop and machinery belonging to Mrs. May Wye, situated on the westerly side of Central Avenue. Loss $2,000, insured $1,100.

The fire departments are in excellent working order, both engines are kept very clean and always ready for service, both houses are kept in excellent order, and I can assure you the boys take great pride in them.

Unfortunately we have no system of Alarm, and therefore have but a little chance of getting to a fire before it has gained so much headway that the fire department is almost useless, and to make the department more effective, the board of engineers recommend that a bell be placed on each engine house, and that 300 feet of new hose be purchased, as a part of that we now have is useless.

GEORGE ADAMS,
Chief Engineer.

GEO. E. JONES,
Secretary.

SCHOOL COMMITTEE REPORT.

TOWN OF NEEDHAM.

REPORT

OF THE

SCHOOL COMMITTEE,

FOR THE YEAR 1888.

The following annual report of the condition of the several schools of the town, which the School Committee respectfully submit, will be found to be for the most part statistical. One or two explanatory statements and suggestions in relation to the schools however are deemed necessary to promote their interests.

The year that just closed has been one of quiet steady work, with no great difficulties to contend against, and no unusual improvements made. There has been nothing in the management, disipline or work of the schools that need to call forth especial comment or to justify adverse criticism.

The whole number of persons between the ages of five and fifteen years belonging to the town in May last, as ascertained by the committee, was 489.

The whole number of pupils who have attended school in town during the year, as shown by the enrollment sheets, is 587.

The average membership of the schools was 529 and the average attendance 454 or about eighty-six per cent of the average membership. The percentage of attendance in the several grades was as follows, High 91, Grammar 90, Intermediate 85, Primary 88 and in the ungraded schools 67.

The whole number of schools in town at the beginning of the year was fourteen. In the management of but one of these, the Eliot, has it been necessary to make any important change. The Eliot school is situated in the easterly part of the town near the village of Newton Upper Falls, and for several years has been kept as a mixed or ungraded school, but to such an extent had its membership increased at the opening of the fall term that it was deemed inexpedient to continue it as one school. At that time the school consisted of fifty-two pupils, belonging to five or six different grades and crowded into one room which afforded seats for only forty six. The teacher being obliged, if the prescribed course of study was followed, to hear from twenty to thirty recitations in three hundred and five minutes or a single school day. To delay action longer seemed unjust to both teacher and pupils, and the committee at once divided the school, making a grammar and a primary grade. By this arrangement both rooms of the building were again brought into use and the number of schools in town increased to fifteen.

By an act of the last legislature, any two or more towns like our own, were authorized to unite for the purpose of the employment of a superintendent of schools, and upon so doing and otherwise complying with the provisions of the act, to draw from the treasury of the Commonwealth the sum of one thousand dollars, one half to be paid towards the salary of such superintendent and the remaining half towards the salaries of the teachers in the district thus formed, on a basis stated in the act. It would be greatly to the advantage of our school if an arrangement could be made with one of our neighboring towns by which we could avail ourselves of the benefits of this act, no one can deny that the best in-

terests of the schools would be promoted by the employment of a superintendent, who could devote his whole time and efforts to the work, with no other business to occupy his attention, thereby securing that uniformity and system in our schools which cannot otherwise be attained, for in school work as in other departments system is essential to the accomplishment of the highest results and this is best secured by means of a well devised supervision.

The sum of one hundred and eighty dollars has been paid into the town treasury during the year for tuition of pupils from the town of Dover. It is but right that the schools should have the benefit of this money, and the committee would recommend that the town, at its next meeting, pass a vote authorizing such an application to be made of any money which may be received, during the present year, from this source.

The sum of one hundred and sixty four dollars and forty five cents has been expended in painting and repairing the Dwight school house, under an appropriation made for that purpose, and the building is now in good condition.

The State Inspector of Public Buildings has caused a notice to be served upon the town requiring an additional stair tower to be built to the Kimball school house, and steps have already been taken by the Selectmen, in conjunction with the School Committee towards that end, when this is done it is desirable that the whole building should receive one coat of paint, and we would recommend that an appropriation of $150.00 be made for that purpose.

We recommend for the present year the appropriation of $10,000.00 for schools, $600.00 for incidentals and $700.00 for books and supplies. We append to this report a table of school statistics which may be of interest.

For the Committee,

EMERY GROVER, Chairman.

Respectfully submitted,

CHARLES C. GREENWOOD, Town Clerk.

Needham, Jan., 1889.

REPORT OF BOARD OF HEALTH

Of Needham, for the Year Ending December 31, 1888.

The Board of Health respectfully submit the following report, hoping it will meet with your approval:

Number of contagious diseases reported during the year are as follows:

Scarlet Fever,	51
Diphtheria,	4
Typhoid Fever,	1

During the year there has been an increase in the number of cases of Scarlet Fever over that of last year, while there has been a decrease in Typhoid Fever.

The number of cases of scarlet fever occurring in each month is as follows:

January, 5; February, 1; March, 8; April, 20; May, 8; June, 2; July, 2; August, 1; September, 1; November, 2; December, 1.

Undertakers' licenses granted to George E. Eaton, Everett J. Eaton, and C. W. Morton for one year, ending June 30, 1889.

Ice Supply.

The supply of ice for this town is mainly from Rosemary Lake and McIntosh Pond. Samples of each have been analyzed, and the results of the analysis are as follows:

Water analysis, figures express parts in 100,000 of water.

Ice No. 1, which is from Rosemary Lake, received Nov. 16th, 1888.

Free Ammonia,	0.010
Albuminoid Ammonia,	0.011
Chlorine,	0.1
Fixed Residue,	
Volatile Residue,	

Total Residue,	1.50
Hardness,	

Nitrates (by Ferrous Sulphates) absent; characteristics on ignition, faint; brown discoloration quickly disappearing, due to trace of vegetable matter; color, none; odor, none; quality, pretty good. The melted ice contains a trifle more "albuminoid" ammonia than a good ice should; but there is no evidence of any injurious contamination.

Transperency-melted ice contains a small amount of vegetable matter in suspension.

(Signed,)

The analysis of ice No. 2, which was taken from the McIntosh Pond, is as follows:

Free Ammonia,	0.011
Albuminoid Ammonia,	0.030
Chlorine,	0.15
Fixed Residue,	
Volatile Residue,	
Total Residue,	1.50
Hardness,	

Nitrates (by Ferrons Sulphate) absent; characteristics on ignition, slight; brown discoloration quickly disappearing, due to trace of vegetable matter; color, none: odor, none; quality, poor. This is a contaminated ice: the melted ice, on distillation, becomes distinctly YELLOW in color. It contains considerable vegetable matter in suspension. It should not be forgotten that the contamination of this sample MAY BE local and accidental.

(Signed,)

The Legislature having instructed the State Board of Health to make a special investigation with reference to the pollution of ponds, lakes, streams, and other bodies of water used as ice supplies in this State, especially with reference to the effect of such pollution upon the healthfulness of such ice for domestic use, and to refer the result of inquiry to the next General Court, we think this will lead to the better protection of our streams, ponds, and ice supply.

Piggeries.

The proportions of this industry connected with the farming interests of this town have become so large that it is a question what the result will be; while the farmers thus using city swill have made their farms fertile and green, the crops exceeding anything of former years, yet the matter of health and the depreciation of property in the vicinity of such piggeries raises a doubt in the minds of the inhabitants, whether the use of city swill can be tolerated at every place where people choose to use it. It is almost an impossibility for persons to use the article without annoyance to their neighbors and the travelling public, as it decomposes rapidly in warm weather and fills the air with obnoxious odors.

The Board find it impossible to get a majority of the parties to exercise due care and neatness in the use of swill. More care on the part of the users would make it much less obnoxious. The Board have labored earnestly with them from time to time, hoping they would respect their neighbors and the public generally, but their effort has proved almost entirely fruitless, until we feel that some stringent measure must be adopted. Therefore we would recommend that the town adopt some rule at its annual meeting regulating the carting and use of city swill.

Wealth promotes health to a certain degree; health promotes happiness; pure air and pure water promote both. The wealth of a few cannot be allowed to deprive the many of heaven's free gift, that of pure air.

Respectfully submitted.

MARK LEE,
A. M. MILLER,
EVERETT J. EATON, } *Board of Health.*

NEEDHAM FREE PUBLIC LIBRARY.

First Annual Report.

In behalf of the Trustees, the following report is respectfully submitted for such action as the Town may choose:—

" Stationery,	57
" Paper tacks,	05

In view of the fact that the labor required to arrange and attend the Library has been performed without charge during

the few months of its existence, it seems proper that this report should make favorable mention of those who have generously given time and labor so freely: Mr. and Mrs. Dunn, Mr. and Mrs. Hicks, Dr. and Mrs. A. M. Miller, Master Bertie Spence, and many others whose names cannot now be recalled, have assisted. To all, thanks, on behalf of the trustees, are tendered.

The ensuing year will require a paid Librarian; also, the desire for books is much largar than was anticipated—standard works, which may be of use to pupils in the High school, are much desired. Works of fiction of a high class are nearly ninety-five per cent. of the circulation; more are very much needed. A printed catalogue will also be a necessary expense in the early spring.

The above facts induce the hope that the Town will be pleased to grant, in addition to the amount of the dog tax, such appropriation as the Town Committee may recommend.

The attention of the citizens is called to the generous donation of seventy-four dollars and seventy-nine cents—proceeds of "The Old Folks' Concert," under the management of Mrs. T. O. Fuller and Mrs. T. F. Peabody; donations of good books, or even money, are solicited. As the Library is free to every citizen, it is desired that each one may feel at liberty to send a list of books, or any book that they may wish to have placed in the Library. The Trustees will give such recommendations careful attention, and if approved, and not already there, will place such books upon the shelves as early as consistent with the amount of funds in their custody.

SAMUEL H. JONES, *Chairman.*
